**My Name Is Carol And I Am Addicted To Audio Books**

**By Paton Jackson**

Hi, my name is Carol and I am addicted to audio books.

My story: I am 32 and addicted to audio books. I have been trying to cut back but I can't.

I was first introduced to audio books 12 years ago. My parents bought me a Stephen King audio book as a birthday present. It included 10 books on cassettes each 25 minutes. I finished listening to it the first night. Then, I started buying audio books for me and for each of my friend's birthdays (whether they liked audio books or not).

As times passed I moved to audio books on CDs and later on to downloadable audio books. I have known all the online audio book rental services and buying services. In fact, I had an account in most of them.

My average output was two audio books per week but I remember some weeks where I skipped sleeping and listened to up to five audio books. I purchased almost any new fiction audio book in the market.

I managed to find some free audio books but still paid a lot of money for my audio book collection.

I got addicted to the comfort of having a "miniature" book. I got addicted to the narration, the music and the sound effects.

I got addicted to the ability to listen to audio books anytime and anywhere (I remember listening to it in the bathroom and in work and in other weird places).

And then I decided to make the move. If I can't beat it, I would join it. I resigned from work and made a profession out of my hobby - I started making money out of my comprehensive knowledge of audio books.

Nowadays, I write reviews about new audio books and serve as a consultant for audio books' publishers. I am happy listening to free audio books and being paid for it (just finished listening to the

last Harry Potter audio book).

Have you tried listening to audio books? Try it.

## **Audio Books - 10 Frequently Asked Questions - Part 2**

### **By Paton Jackson**

The audio books era is already here. I keep hearing phrases like: Audio book rental, free audio books, audio book club, audio books on CD, online audio book rental services etc.

Here are the next five frequently asked questions about audio books (and the answers of course):

6. What kinds of audio books do you recommend to listen to? Listen to audio books that you would read. Meaning, if you like thrillers, listen to thriller audio books, if you are looking for children books, get children audio books etc.

Yet, I suggest you get to know more other successful audio books kinds such as language tutorials and motivation audio books.

7. Are the old fashioned books going to disappear? I don't think so. In fact, I still prefer reading books before I'm going to sleep. The experience is a different one, and some people still prefer the old books. Yet, I believe that the reading habits of most of the world's population will change in the next century thanks to audio books.

8. Can I find any book in an audio book format? Unfortunately not any book could be found as an audio book. Yet, almost any new book and any bestseller from the last century are getting published as an audio book. Most of the old books could be found in the format of books on tape and the new ones as downloadable audio books and audio books on CD.

9. How can I listen to downloadable audio books? You could listen to downloadable audio books using a media player on your desk top or your note book computer. However, most people use audio players like iPod to listen to downloadable audio books.

10. Where should I get my audio books? The best place to get audio books from would be one of the online audio book services.
