**Online Gambling – Keep Control**

**By Adel Awwad**

Gambling can be addictive no matter where you are doing it – at a land casino, playing the lottery or

at an online casino. Sometimes it is easier to get carried away at an online casino than at a regular land casino because you aren't actually handling money or chips, your money is all digitally displayed. Further, money can go fast when you are having fun.

As it is with all gambling, it is important to keep control when you are gambling at an online casino. By keeping track of your credits and cash and setting yourself honest limits that you adhere to, online gambling won't be a problem for you. Further, by setting limits on yourself for how much money you are willing to gamble and lose, you can keep control of your online gambling habits and make it a fun experience as it was meant to be. Gambling can be a lot of fun, a real adrenaline rush—especially when you are winning. There is an adrenaline rush when you are losing too, and that's when online gambling can get out of control and before you know it, you've spent much too much money, much more than you intended to gamble away. There are other precautions you can also take such as watching your drinking, not playing when you are tired and setting a time limit on each gambling session.

If you think you have a gambling problem, then please contact your local gambler's anonymous help group and get some help. It is so important not to let gambling run or ruin your life. "Just one more twenty/hundred/thousand dollars" is never something you should say more than you can afford to. Watch and keep track of what you are doing, how much money you are inputting into an online casino and keep the game and gambling experience fun for you and everyone.

## Guide to Gambling Online

is one of the most comprehensive guides

to casinos online. Gambling online is set to become the rage of the future. With more and more people having less time there is a need for an alternative choice.

Like all choices the Internet takes precedence. Consider that there are more than a thousand sites online that feature gambling and casinos as the main selling service. Out of these thousand only a couple of hundred will be legal and safe to play at.

Sure gambling is a risk but it's a risk taken after careful consideration of the odds. Many site owners know how to reduce your odds of winning and ensure that the house always comes out on top.

This is where you need to learn how to raise the odds. When gambling at an online casino makes sure:

1. The Casino has an established help line.
2. There is a valid phone number provided.
3. Known and recognized forms of payments are accepted.
4. The casinos are based in the US.
5. The payments are made immediately.

Only after these points are considered can you play at the casino with the belief that every win will be fair and every loss a twist of fate! Consider sites that feature casino guides when making your decision e.g.

is a site that ensures that you make an

informed decision even if it is to gamble!

I am a professional gambler who visits Vegas at least once every two months, this site is for people like me who love gambling but want the odds in the right place.
