Online Poker Affiliate Marketing Strategy: Blogging

By Blake Stevenson

If you're an online poker affiliate and don't have at least one blog set up, you're missing the boat.

Blogs are a great way to promote poker and are extremely easy to use as traffic generators. Here is a quick start guide to getting you up and running with your own poker blog.

1. Choose Your Weapon – There are two blogging platforms that I would recommend using, either will work just fine so it is entirely up to you. The first is Blogger. Blogger is a great way to get a blog up and online in just minutes and doesn't require you to spend a dime on a domain name or hosting account. You can customize your blogger template with ads and begin blogging in just minutes. The second is WordPress. If you already have a domain name (or don't mind registering one) and a webhosting account, you can install WordPress for free. If your host gives you access to Fantastico, you can actually have WordPress automatically installed on your domain in just a few mouse clicks. There are pro's and con's to both platforms but both will allow you to get up and running easily.

2. Decide to Blog About – There are many different topics related to poker that you could potentially blog about. Home games, online tournaments, televised tourneys, your last trip to Vegas... the list goes on and on. Pick a topic and go with it.

3. Submit Your RSS Feed – Regardless of which blogging platform you choose, you'll have an RSS feed included. After making your initial blog post, submit your RSS feed to blog and feed directories. This will generate incoming links (which is important for a number of reasons) as well as directory traffic.

4. Write! – Update your blog at least a few times every single day. Make sure that you're including important keyword phrases in your posts that will attract search engine visitors.

That's all there is to it! Blogging is a very easy way to quickly publish new content to the web and if you do this consistently every day, you'll build a good foundation of unique content that will generate traffic for you day in and day out.

Poker Affiliate Program Internet Marketing Tips

By Blake Stevenson

Once you have made the decision to become a poker affiliate for an online poker room, it is very important that you turn your attentions to internet marketing techniques. Marketing your poker affiliate business through the use of internet marketing tactics is one of the easiest ways to generate a massive income with poker affiliate programs.

Though many people may not view being an online poker affiliate as a real business, it is most definitely a viable way to create serious wealth. However, to earn any kind of serious money, you must take things seriously and apply a lot of hard work. Becoming a poker affiliate is not a way to get rich overnight and anyone who tells you otherwise is not being honest.

To become a successful poker affiliate, your main goal should be traffic generation. When creating the content on your website, be sure that you target the right keywords as this will help you bring in search engine visitors. If you fail to target the proper keyword phrases, people are going to have a very difficult time finding your website.

Also, a solid tracking software is an essential tool for any poker affiliate using internet marketing as a way of building their business. A professional stats program will help as it will tell you exactly where your traffic is coming from. Successful affiliate internet marketing is a much more difficult thing to do if you don't have a way of tracking your results.

Another great way to promote online poker rooms as an affiliate is to publish a regular internet poker tips and strategy newsletter. Build a list of people who are interested in playing poker online and regularly email them with helpful advice, new bonus codes, and more. Using email can be an extremely powerful tool when you are promoting poker rooms and I strongly recommend that every online poker affiliate start using this to their advantage.
