Ontario, Your Next Vacation Spot

By Shawn Everett

Ontario is the second-largest in area of Canada's ten provinces and is found in east-central

Canada. Its capital is Toronto. Ottawa, the capital of Canada, is also located in Ontario. Ontario has a population of 12,449,502, representing approximately 37.9% of the total Canadian population.

Its excellent transportation links to the American heartland has contributed to making manufacturing the principal industry, found mainly in the Golden Horseshoe region, the most industrialized area in Canada. Important products include motor vehicles, iron, food, electrical appliances, machinery, chemicals, and paper.

Culture wise, you can enjoy Broadway blockbuster shows or innovative local theater on Toronto's diverse stages. Be dazzled by Ontario's myriad museums and their signature collections including rare ceramics, classic canoes, fantastic footwear and more. Whether you are moved by old masters or inspired by avant-garde installations, you'll delight in wide ranging art galleries.

Ottawa is the federal capital and is situated on the south bank of the Ottawa River facing the French-speaking city of Hull in Québec. The imposing Gothic-style Parliament Buildings overlook the confluence of the rivers Ottawa, Rideau and Gatineau. The colorful Changing of the Guard ceremony takes place here daily in July and August.

The National Arts Center, a hexagonal complex on the banks of the Rideau Canal, houses an opera company, theaters, studios and restaurants. The Rideau Canal and the Rideau-Trent-Severn Waterway are part of a complex of recreational lakes and canals linking Ottawa to Lake Ontario and Georgian Bay.

Outstanding among the city's many museums and galleries are the National Gallery of Canada, the National Museum of Science and Technology, the Canadian Museum of Nature, the Canadian War Museum and the Museum of Civilization (over the bridge in nearby Hull).

Toronto is the provincial capital and is Canada's largest city. Its accelerated growth in recent years, with a huge influx of immigrants, has resulted in one of the most vibrant and cosmopolitan cities on the

continent. The city is laid out on a rectangular grid broken only by the Don River and Humber River, the banks of which provide a host of recreational amenities.

"Must See" tourist attractions in Toronto include The CN Tower, the world's tallest free-standing structure with its glass-fronted elevators rising 553m (1815ft) to indoor and outdoor observation decks that afford a 120km- (75 mile-) panoramic view on a clear day.

Also in Toronto is Niagara Falls. The Falls provides a vast array of year-round activities for the entire family. Beautifully-maintained biking and walking trails line the world-famous Niagara gorge while numerous golf courses, ball diamonds, playing fields, swimming pools and rinks are also here. The Falls has excellent accommodation options with over twenty Bed and Breakfasts listed with prices to suit all needs.

Shawn is the owner of The Bed and Breakfast Connector (

). We provide a

full service online directory to visitors and guests alike.

A Nice Savanna Vacation

By Jenny Riley

Almost everyone have their own ideal vacation spot. This usually considered as the perfect place where the worries and toils of survival can be forgotten momentarily. And two natural elements that often characterize this ideal vacation spot are the sun and the ocean.

There must be something about the sea that makes people flock to it. But humans we know are very unique. So for some reasons, other people would rather go for a vacation spot that offer peace and serenity, and perhaps a change of scenery. This for me is what a Savanna vacation represents. The city is replete with historical monuments and other facilities for a relaxing holiday.

For those who have never been to Savanna, you may want to consider it as your next vacation spot. It is certainly a beautiful city; with a pronounced serenity you can't fail to notice as I did the first time I visited the place.

I heard about this classic city as an ideal vacation spot from my brother. I went online and did further research on my own to have a good grasp of this holiday spot. I discovered the city seems to have all that is required for a serene retreat or better still a romantic weekend.

Though Savanna vacation might be an unpopular choice for many holiday fun seekers, it certainly sounds fine to me.

Ontario, Your Next Vacation Spot

I never really had any chance for a honeymoon when I got married, so I decided that a trip to Savanna will be a perfect romantic getaway. The Internet will provide all the information you want about this majestic city. If historical buildings and architecture fascinates you, then Savanna vacation is tailor made for you.

There are also many exotic dining and shopping districts, and of course captivating sights that attracts many people to the city. The location of the city on the waterfront also provides tourists the opportunity to ride on fairy boats, or take leisure strolls down the coast. An ideal holiday spot don't come better than this.

Because Savanna was once a prosperous place, there is an erroneous belief that the natives don't care about new folks coming in; nothing can be farther from the truth. Those seeking a serene getaway or romantic weekend can testify to how they were welcomed with open arms.

The natives are nice people. The huge resource of the Internet can provide numerous websites that discussed ideal Savanna vacations. These sites will usually list the interesting places to visit and the desirable things to do. For those searching for that special romantic getaway with their wives or partners, Savanna vacation it's got to be.
