"Peace in the Middle East – whoa that is a toughie.

You have millennia of sheople being led around by the nose while abusing their mothers and daughters on both (or all eight or nine) sides of the issue and then there is all that oil that corpserists backing the US are in need of.

I suspect there needs to be real ecumenicism and the religions must be forced (which will require Bush or someone also admitting all religions say the same things) to say so. And then it will take years of re-programming before the land so full of holes and ass-holes begins to deserve any recognition as a Holy Land rather than a playground for Holy Empires.

Then I would suggest that we use Free Energy or alternative energy sources and begin making it clear there is an abundance of energy all around us. If we had to we could simply get Helium III from the moon for some purposes that the Tesla (Newman, Farnsworth, Fleischmann-Pons, Solar, Bearden and Vacuum etc) energy did not find application suitable to match the requirements. This would diffuse the arbitrageurs who love unrest more than a little and be detrimental to the oil cartels (Bushco).

Finally and most unlikely if people continue to believe the history they are taught in school – We must remove special status for people who hide behind corporate or national veils. It was only recently that corporations were given superior rights to any individual. At the same time we must reduce national interests while increasing local autonomy. The futurists like Toffler have been right about this happening in Europe but they could have explained why the plan set in motion in the 19th Century would lead to the EEC.

This same plan might be necessary if Nations are to continue in their present sovereign (derived from Kings who were said to be Divine) status. I would hope that will not happen but it is apparent in the words of Woolsey and Bennett that it is the plan. It is in fact the way that Kissinger Associates have laid out the NSS document that George II calls a War on Terra.

On the other hand if people started learning the Hegelian Dialectic of history – then real change could occur. Then standing armies would be outlawed and women would be free. How can people be educated about all the lies of Nations and leaders and yet still have some hope for mankind?"

Peace On Earth  
John Cali

Well, it's become a tradition around here, at this holiday time of year, for us to re–publish a couple of our more popular newsletters from years back. We re–published "Gratitude" last month, and this month we're re–publishing "Peace On Earth."

This week, many of our world's cultures celebrate Christmas. And our thoughts turn to world peace. Or, perhaps, to the lack of it. Joseph's old message "Peace On Earth" is not only timely in these trying times, but also timeless.

I wish all of you and your loved ones a most blessed and beautiful holiday season. Whatever your religious or spiritual beliefs, may you find joy and peace in this season of celebration — a celebration of all life in all its seasons.

Chief Joseph

On your earth plane, you often have "peace meditations." And yet every individual's definition of peace is different. There are as many definitions and kinds of peace on your planet as there are people walking upon it.

Generally, we are not in favor of peace meditations. Why? Because everyone comes to the meditation — or whatever the gathering is — with different, often conflicting, ideas of what peace is. And that defeats the very purpose of your coming together.

However, let us say this: Those who enter into these peace endeavors are coming from a pure heart, from a pure intention. There is certainly no malice in them.

But the only way you can create "peace on earth" is to first create it within yourself. This is a premise many on the earth plane have missed.

You must be at peace within yourself — you must have found peace for yourself — before you will have

any peace to give others, before you will ever be able to show others the true path to peace.

And when you do create this "peace on earth," know this: you will all still have different ideas of what peace is. There will never be, in your experience in this lifetime, a time when all will agree on just exactly what peace on earth is.

You did not come into this particular incarnation — at this particular time in your human history, at this particular time in your own individual history — to create total peace on earth.

You came to this planet at this time to experience diversity, not oneness. And in that diversity you will all find joy, once you allow the diversity to be okay. Once you allow yourself, and all others, to be okay just exactly where you all are right now.

In that allowing, and only in that allowing, will you ever find peace on earth.

Peace will never come to earth unless you see — and understand — all will never be one and the same. You are all diverse and different.

You will find peace — total peace — only in accepting and allowing the diversity, and in letting go of your need for sameness.

Peace be with you.

Since 1992, John Cali has been communicating with a spirit called Joseph. In one of his many physical lifetimes, this spirit was incarnated as the legendary Chief Joseph of the Nez Perce tribe in what is now Oregon.
