Picking the Top Sportsbooks by sportsbooksgames.com

By Joe Pav

Personally, I can't think of anything better than watching sports and making money. If you are an avid sports fan and have been trying to find a place to do your sports betting, look no further than the search engine on your computer. Top online sportsbooks have been around for several years now, but how do you find an honest sportsbook you can trust that offer the best odds. Although you should perform your own due diligence in finding a online sportsbook that is both reputable and customer service oriented, Top Sportsbooks have taken much of the leg work out by selecting the top sportsbooks in the industry. To make a profit at these top sportsbooks, you should take a disciplined and long-term approach. One thing to take into account is that the bookmaker is simply a facilitator whose intent is to level the odds so that he makes a small profit no matter which team wins. If too much money is wagered on one team, the bookmaker will adjust the point spread to encourage sports betting on the other team. This ensures him of making a profit. In order for you to make a profit, you only need a very small edge over the long term. A profitable handicapper hits at only a rate of 53% or more games against the spread.

These are the points to follow when pick a top online sportsbook:

1. They have several years of successful operation. The sportsbook has a reputation that has been proven over time and not in claims in their advertisements.
2. They have convenient the rapid availability of funds. They have speedy transfers and offer same day payouts.
3. They have first rate customer service. They treat clients with respect and resolve disputes in a consistent and fair manner. They have professional, courteous, English speaking staff, as well as customer friendly policies.
4. They have the latest computer technology. The speed of final results posted, and the accuracy of the bet taking should be important features in the sportsbook the you choose.

5. They have Las Vegas style rules and regulations. Be sure to check the fine print on parlays, teasers, propositions, and other wagers. .

6. Check on negative reports from industry watchdogs. You can look at reports of problem companies from the Offshore Gaming Association (OSGA.com)

7. The sportsbook offers good bonuses and incentives to sign up. Most sportsbooks offer bonuses when you sign up the first time. Be careful for the sportsbooks that offer the unbelievable bonus deals. They may not be able to stay around for the long haul.

8. The sportsbook has available management. The general manager or other management people is available for you to talk to. They have enough clerks and supervisors working during the busy periods. The sportsbook online betting capability doesn't bog down close to game time.

9. The hours of operation are flexible. The top sportsbooks are open seven days a week, 365 days a year, 24 hours a day.

10. The sportsbook is legal in the country of operation. You want to be sure that the online sportsbook is operating in a legal jurisdiction so you can have some recourse. Look for sportsbooks that are members of Offshore Gaming Association (OSGA) or any other reputable association.

What Makes A Great Online Sportsbook

By Sebastien Veilleux

All sportsbooks were not created equal. The Internet has given us unprecedented choice when it comes to betting on sports online. I am going to list a few of my must-have items for online sportsbooks. Does your current sportsbook have these features? If not, perhaps it's time to check around for a new sportsbook.

Feature One: Security

It all starts and ends with security. If an online sportsbook is not secure, there's nothing else to talk about. For security, I look at a couple things. Is the online sportsbook licensed and regulated by a government entity? I want to make sure there's some sort of bond backing up the actions of the sportsbook. Another key point is Internet security. Is the sportsbook using the latest and greatest in security methods? I certainly don't want to deposit my money just to find all my personal financial information spread around the Internet a week later.

Feature Two: Depositing Methods

An online sportsbook absolutely must have many depositing options. For me, the critical one is 3rd party options, like NETeller. Using a 3rd party depositing service like NETeller or FirePay should be like second nature for anyone gambling online. Rather than spreading your vital financial information to many parties around the web, use one source to handle your money. Once you have money in NETeller or FirePay, you can simply send money back and forth to many online sportsbooks. As far as I am concerned, you should never do things any differently.

Feature Three: Action

You might be surprised to learn this, but not all sportsbooks have the same events up for betting. Take horse racing for instance. Many sportsbooks fall short in this category. Another area where sportsbooks vary is prop bets. If you love prop bets or future bets, it's best to shop around for multiple sports books. It's very rare to find one sports book that has it all. Usually, you think they have it all until you find another sportsbook with other options. In the old days, Vegas sports bettors would have to drive around town looking for a good deal. Today, you can just click over to multiple online sportsbooks and find the deal you want.

These are three very important features. They are must-have features for me. Online sportsbooks come big and small. The competitive winning sports bettor will want to have accounts at a few or more to get the best deals and the most action. Before jumping into any online sportsbook, do your research, and make sure the online sportsbook is reputable. Research is becoming very easy these days as there are sites setup specifically for this purpose.
