Plan A Visit To The Beautiful United Kingdom

By Josiah William

The United Kingdom consists of Great Britain, which includes the countries England, Wales and Scotland, along with Northern Ireland. It is basically a comfortable combination of villages and urban city life where some old manufacturing cities are found still functioning.

The population is mix of various cultures with the respective capitals of the cities offering great entertainment to the tourist. The cities provide all the normal pastimes of city life with theaters, pubs, discos, restaurants and shopping centers. And a visit to the outside of the cities, you can get a glimpse of the beautiful heritage of the villages here. There are ancient stone rings, vast country houses, medieval village churches and of course the local pub which are all worth a visit.

English is the common language of the country United Kingdom. There are some people who speak Gaelic in Scotland, and Welsh in Wales. However, most of the people here are bilingual as it is compulsory to study two languages in school here. When visiting United Kingdom, there are basically not many health precautions to be taken.

The climate in United Kingdom is very varied with snow in April, sunbathing possible in February and a slight drizzle present nearly the whole year through. However, rains tend to be heavier in the month of November. Though Scotland experiences snow, it cannot be considered to be a skier's paradise as the snowfall here is unpredictable. The Welsh coast and Northern Ireland have a warm summer, but the people here head to Britain in the summer to be in the sunniest spot of the country of United Kingdom.

Food wise, everyone will find something to suit their tastes as there is a large range of restaurants serving a variety of food in Britain. Surprisingly, the country's most popular dish is the Indian dish, chicken tikka masala! There are also Chinese, Italian, Thai and traditional dishes like fish and chips, roast lamb, and desserts like rhubarb crumble or trifle all served in restaurants here. The famous food of the Scots is haggis and neeps, while the Welsh are famous for laver bread and Welsh rarebit. Drinking is a favorite with the British, but most pubs close at 11 pm because of licensing laws. Of course, Scotch whiskey is a drink with international acclaim, along with Irish whisky. Visit one of the many distilleries of the country to taste some beautiful whisky!

Plan A Visit To The Beautiful United Kingdom

mornings, off schedule (or skipped) naps, changes in eating times, and late nights. Also the weather in Orlando can be extremely hot and humid or very rainy, depending on when you visit. It is crucial that parents understand that children will be on sensory overload and will be out of their routines when on vacation.

You can visit the Magic Kingdom with children and still have a fabulous time. If you are only able to visit for one day, you should arrive at the parks before its scheduled opening time. As the park opens you should visit Fantasyland (if traveling with small children) or Frontierland (for older children). A one day touring schedule is possible, however, if traveling with children you will have to be willing to limit your list of "must-see" attractions. With children, it is always better to allot two full days at the Magic Kingdom. This will allow you to tour at a calmer pace and allow your children to take in all that the park has to offer.

Your advanced planning when visiting the Magic Kingdom should include deciding what time of year to visit, what day of the week will be least crowded, and how many days you have to visit the Magic Kingdom. You should also review the park layout and policies before you arrive. Being knowledgeable on the attractions will help you decide which ones you would like to visit before even arriving in Orlando. Reviewing Disney information on stroller rentals, the Fastpass system and parades and shows are just a few examples of things you should strive to learn about before you arrive. This will allow you to maximize your time at the Magic Kingdom and concentrate on your Disney family vacation.

A little planning will help you create your best visit to the Magic Kingdom!
