Power Training for your Website - Build that traffic

By Marc Lindsay

We all know what it is like to get in the gym and do a darn good workout don't we??

It feels exhilarating and you walk away with a sense of achievement and that you have done something right to your body

Well I was in the gym the other day doing the strength component of my training and I it made me question myself. What is it that makes us bigger, grow more muscle, and get stronger. Or in the Internet side of things create more traffic flow, have more links coming in and achieve a higher Search Engine Ranking.

They both require constant attention and work, It is better to work two or three major area's at the same time doing "power movements" as this creates more "bang for your buck" so to say.

Well I have taken the major concepts of what is working for me in the gym and applied it to Internet Marketing. "POWER MOVEMENTS"

So what is this amazing "power movement" you are talking about.

It really is simple..... You are reading it.

That's right by writing your own unique articles and submitting them to article submission sites you can do a Power Workout for your website by growing the three major groups. More traffic, more incoming

If you have a well behaved dog a six foot training lead and a regular buckle collar will do. However if your dog is uncontrollable you should use a training collar. For the right collar size measure the dogs' neck and add 2 inches.

3. Dog Training Tips – For safety in vehicles

Before you introduce your dog to the inside of a moving vehicle you should teach him the 'down!' and 'stay!' commands. This ensures that he spends the ride on the floor of the vehicle.

4. Dog Training Tips – Elimination

When your dog got to go it got to go. To prevent your dog from getting busy on the carpet you should train him to eliminate on command.

5. Dog Training Tips – Praise

Always praise your dog when he learns a new command.

6. Dog Training Tips – Reprimand

Do not hit your dog! Any time your dog is engaging in bad behavior, use the opportunity to teach him the 'stop!' or 'no!' command. Using the 'stay!' command can also be effective in these situations.

7. Dog Training Tips – Play with your dog

This will help in building the bond between you and your dog.

8. Dog Training Tips – Do some dog training everyday

Don't rush dog training. Teach your dog one command at a time and don't move on until he gets it. A little dog training everyday is all that's needed.

Well that's it for my dog training tips. Enjoy training your dog and remember that it takes simple persistence.
