Proper Golf Attire Is Good For The Golf Course Establishment

By George Gabriel

Most golf courses have made rules and regulations about proper dress attire. If you feel

comfortable playing golf in shorts and a t-shirt, make sure you call ahead and check the dress code rules. Not all golf courses have a dress code, but the majority does.

If you're on the way to the golf course and your buddy is reading this article from your laptop, you do not have to turn around if you're wearing your favorite tee shirt and bathing suit. The vast majority of golf courses have a pro shop to upgrade your dress attire. Now if you elected to leave your wallet at home and only bring your license, find a safe place to turn around.

Stepping up to the tee box with your best-cut offs and favorite t-shirt is pretty unusual these days. That type of golf wear only looks good on the beach according to a lot of golf courses. Years ago golf courses did not frown upon improper dress attire, because of the lack of golfers. We all know how things have changed dramatically over the years.

There is a good reason for mandatory golf wears, such as a collar shirt, shoes and socks. In order to keep other members from taking the high road and going elsewhere, golf courses have made changes over the years to keep golfers and dedicated members, and or potential new members to come back to play their golf course.

The golf course is running a business function. In order to set a good impression, both the golf course and members must look good to attract other members to their establishment. Therefore there is a dress code in place at most golf courses. The golf course establishment wants you to feel good and look like a pro. It helps keep existing cliental and attracts other golfers to come back to their golf establishment. After all, if your girlfriend's parents invited you to one of their business functions. Would you show up wearing cut offs and a t-shirt?

Golf Bags For Beginner Golfers

By Raymond McNally

You might be a golf beginner looking for your first set of golf clubs and equipment or a pro shopping for upgrades, but all will agree that golf bags are essential in the game. Next to golf clubs, a golf bag is one of the most important golfing equipment there is.

It is considered a necessity. A good golf bag will lessen your worries on the golf course, (i.e. all your clubs are in their proper place) and you can focus on your teeing.

If you're a beginner golfer, then golf bags are definitely a must. However, there are things that you should know before going to the nearest golf store and buying a golf bag on impulse. First, there are two types of golf bags? carry bags and cart bags.

Carry bags are golf bags that are used when you are planning to have a lot of walking on the golf course. Cart golf bags are those that you use when walking is not possible (as some golf courses prohibit walking), and riding a golf cart is your option. A beginner golfer will most definitely buy a walking bag at first, although if you are a serious beginner of the game, then you will eventually buy both types of golf bags.

If you are a newbie in the game, you might ask "What is a golf bag for? I only have four golf clubs." A golf bag is a functional equipment rather than a fashion statement. It is not just for your golf clubs, but it can also hold your other golf equipment and accessories. Some advanced golf bags even have pocket coolers that can keep your drink ice-cold even for hours! You might want to consider that, especially when you will buy a carry golf bag.

When buying a golf bag, especially a carry golf bag, find a comfortable one. One should check the straps to see if it fits comfortably and whether it can be carried easily. Remember that your golf bag will be one of your trusted companions on the greens, and that you will spend hours with it. So choose wisely. Don't buy low quality bags, because you will end up purchasing another bag in the next few months if your old golf bag tears up. You should also buy your golf bag depending on the number of golf clubs that you have. Most golf bags can carry up to 15 golf clubs. A tournament however limits the number of golf clubs in your golf bag.

Another important thing to consider when purchasing a golf bag is its weight. This is one of the most important things to know. Golf bags should be light enough to be carried or carted easily, but sturdy enough to hold your clubs and protect them. Some golf bags are even water resistant, and are rain proofed for the protection of your clubs. Most of these golf bags have 8 or 9 dividers or pockets. Again, the number of dividers that you will need depend on the amount of clubs and accessories you will carry. If you have many golf clubs then choose a golf bag with many dividers. However, these types of golf bags have the tendency to be heavier. Some bags can weigh less than 5 pounds! These types of bags are made up of space-age materials such as graphite, however, they more expensive.

Remember that when buying golf bags, the lighter it is, the better and more comfortable it will be.
