We will go out and look at the car, check to see that it runs, the general information on the car, whatever upgrades or options that are available, tires, frames and basic body condition. The core information does indeed come from the seller though. There are alot of things to consider when thinking about purchasing a car such as will it handle in the right conditions? Is the gas milage something I am comfortable with? Is it a practical car for this period of life? What will the insurance payments be? Can I even insure the car for it's actual book value? If you want to just talk to us and see what car or truck would be best for you we will gladly sit down and go over all of this with you. There is no pressure to buy from us. We believe that your needs come first. Along with purchasing a newer car, we recommend that you run a carfax report on the vehicle. If you purchase the report then buy the car from us we will refund your money if you run the report off this site. 10 Classic Fashions No Woman Can Do Without

By Shirley Pierce and Janet Behmer

10 Classic Fashions No Woman Can Do Without by Shirley Pierce and Janet Behmer

A fashion savvy Australian Aborigine once said, "The more you know, the less you need." Translation: It's better to know your way around the classics than have a closet crammed with clothing that is already so "five minutes ago".

It's smart to stock up on classics, no matter your personal style. Think Carolyn Besette Kennedy, Catherine Deneuve: always, simple, chic and impeccably dressed.

Once you have the classics, you can go anywhere. If you buy pieces that are well-made and in good fabrics, they'll wear better, feel better and, of course, look better on you. The fabrics to look for are lightweight wool gabardine, silk, cotton, linen, cashmere, and textured microfibers. Go that extra mile and make sure everything fits, especially the tailored pieces. Go to a tailor if something needs to be

altered. It's worth the money. Now for those of you who are not the "classic" type, you can still do your own thing. Try a Chanel jacket with jeans or a leather bomber with a chiffon skirt.

If you're downtown hip with a touch of "goth", just add a leather jacket to the classics along with leather pants and animal print accessories.

If you're the artistic, creative type, throw on some ethnic or artful pieces to give the classics your own special style. Think Peruvian hand-knit sweaters, chunky bracelets or African necklaces.

Classics are also good if you're on a budget. They last longer and you'll have fewer mad dashes to the mall to buy a piece just for one evening. If you don't believe us, try on a little black dress or a solid color suit. Add a scarf, several necklaces or different belts. See how many different looks you have?

What are the true, blue chip classics? Take notes. The wardrobe you save may be your own.

THE CLASSICS

- 1.) 3 Piece Suit -- Try a jacket, skirt and pants in a solid color.
- 2.) Navy Blazer -- A must have that makes an impression.
- 3.) White Shirt -- Nothing beats a crisp cotton shirt with or without French Cuffs.
- 4.) Khaki Slacks -- Versatility is their strong suit and they can withstand a nuclear winter.
- 5.) Cashmere Sweater or Twin Set -- Sedate or seductive. Your choice.
- 6.) Jeans -- Keep them "classic". Dry-clean or press them yourself after washing.
- 7.) Little Black Dress -- All hail to this number that can go from smokey bar to a ballroom.
- 8.) Formal Attire -- Dramatic separates are better to mix'n'match and make different outfits.
- 9.) Raincoat -- Go for a zip-out lining. The Trench Coat is the true classic.
- 10.) A Positive Self Image -- Nothing looks better on a woman than her confidence and pride.

Classics rock. Trust us.
