Roses 101: When To Send Them & Why

By David Sanders

Roses are perfect for any occasion because they are classic and they smell just as terrific as they

look. Whether you opt for real or silk roses, the lucky recipient is sure to be happy. Below are some common uses for roses:

\$ Valentine's Day. Because the classic red rose is a symbol of passion, it is undeniably the most popular floral arrangement to be given on a holiday that is all about love. On Valentine's Day, florists find themselves delivering countless orders of roses to all who are lucky enough to have found love.

\$ Wedding bouquet. Speaking of love, there is no better day to celebrate it than on a wedding day. Many brides prefer to carry a bouquet draped with roses because of their classic beauty and elegance.

\$ Prom corsage and boutonniere. Every high school student looks forward to their prom and, as such, they are responsible for selecting a flower for their date. The gentleman will select a corsage, either wrist or pinned, that will feature a rose and ribbons to coordinate with their date's dress. The young ladies will select a rose boutonniere for their date, which will commonly feature a simple rose bloom with an accent of babies breath.

\$ Mother's Day. Every woman loves roses and this is especially true of moms on Mother's Day, which is the perfect day to remind her how much she means to you with a beautiful bouquet of roses or a vase filled with a beautiful arrangement and accented with a red bow.

\$ Anniversary. Whether it's your anniversary, your friends or family, roses are the perfect gift to celebrate this happy occasion.

\$ Congratulatory messages for a new birth, graduation, new business or other milestone. Nothing says congratulations quite as well as roses do.

\$ Show of appreciation. If someone has been especially kind, helped you through a difficult situation or simply offered you encouragement when you needed it the most, roses are the perfect way to say 'thank you' and offer a thoughtful way of showing your appreciation.

Just as there are many different occasions for which roses are appropriate, there are a number of variations in their color. The most classic rose color is red, but these slender beauties are also grown in white, pink, peach, yellow, etc. An arrangement of roses is usually prepared with babies breath, which is a white decorative addition that adds the perfect contrast and brings out the brightness of the rose. If you are looking for a classic way to show you care, roses are just the ticket.

A Beautiful Rose Is Natures Gift

By Mike Yeager

Roses are one of natures most beautiful and splendid gifts. Roses come in a variety of colors and scents, from deep, deep red to the brightest yellow. The many pedals on roses offer a texture and fullness to roses that far outshine any other flowers. Black roses, red roses and white roses have all been used in historical writings. Even Sherlock Holmes paused from his busy work while solving the case of "The Naval Treaty" and said, "All other things ...are really necessary for our existence...But this rose is an extra. Its smell and its color are an embellishment of life, not a condition of it. It is only goodness which gives extras, and so I say again that we have much to hope from the flowers.

It's interesting that something as beautiful as roses are also equipped with sharp thorns. An interesting play on our concept of taking the good with the bad from nature. The most esteemed of all cultivated plants, are the true roses. Rosa occurs indigenously in the north temperate zone and in tropical mountain areas, usually as erect or climbing shrubs with five-petaled fragrant flowers. The rose has been a favorite flower in many lands since prehistoric times. It appears in the earliest art, poetry, and tradition. It has been used in innumerable ways in decoration. In ancient times it was used medically. But, for many gardeners just being able to grow beautiful roses is reward enough.

You can search all over the web to find some great resources to help. Yellow roses, blue roses or climbing roses can all be found on the internet. Take your time to look around and consider what kind of roses you would like to have blooming in your garden.
