You've taken the first step and purchased a sedu hair straightener, the next step however, is learning

Sedu Ceramic Hair Straightener Tips

to achieve the best results from your sedu hair iron. Before we look at how to use the sedu hair straightener to achieve the best results, let us first look at exactly what sedu ceramic hair straighteners are.

Sedu ceramic hair straighteners are the latest in hair straightening technology and come complete with ultra smooth ceramic plates that have been designed to prevent stretching and breaking of the hair. The sedu hair straightener also comes with a faster heat up time and also takes less time to achieve your desired hairstyle. Sounds great, so how do you actually use the sedu hair iron?

The first thing you will need to do with your sedu ceramic hair straighteners is of course to plug them in. The sedu hair iron comes with its own temperature control gauge so you can select the perfect setting for your hair type. For bleached or damaged hair the lower setting on the sedu hair straightener should be used. For coarse and stubborn hair use the high setting on the sedu hair straightener.

The next step will be to use your sedu hair iron to straighten your hair. It is important to remember that sedu ceramic hair straighteners should never be used on wet hair. Even on slightly damp hair you can cause un-repairable damage or scorching to your hair. You should always shampoo and condition your hair, add styling products and then blow dry fully before using the sedu hair straightener.

By separating your hair into sections the sedu hair straightener will be easier to use. Take a section of hair and pass the sedu hair iron over it. Do not overuse the sedu hair iron on any section of your hair. It is important to note that the sedu hair iron has been designed to cut half the straightening time of other models and therefore 2 to three passes on each section of the hair is plenty. Repeat this for every section of hair. Once finished just brush through and your new sedu hairstyle is complete.

So you see, sedu ceramic hair straighteners are simple and easy to use, and with patience and practice you will be on your way to celebrity sedu hairstyles such as the Jennifer Aniston sedu hair style everyday.
