In today's business world, if you're not selling your product online, you're losing sales. If you have a product, make money online by selling online. There are simple ways to make money online.

Make sure your site is professional and easily navigable if you want to make money online. If you have a lot of product, a search feature is a necessity in order for you to make money online. If you have only one or two products, you can use a payment method such as PayPal to make money online. However, if you showcase more product in order to make money online, you'll want to open a merchant account to handle credit card payments. Some merchant accounts will also offer free features, all helping you to make money online. To keep from violating credit card rules, make sure that for Internet sales, you have an Internet account.

Consider paying affiliates to help you make money online. Affiliates are online "word of mouth" referrals and can increase the amount of money you make online. They link to your site from theirs, and all of their traffic becomes your traffic, increasing the likelihood of making money online. When it comes to making money online, affiliate marketing is a no-lose for the merchant, because commission is paid only on sales.

Consider making money online by selling your product through an eBay storefront. Bidding on items has become a hot way to make money online. Having your own storefront ensures that buyers can find you easily because your product is in one place. Through your storefront, you can make reports, track traffic and sales, and receive advertising through eBay. You can try a storefront for 30 days free, making it an attractive offer to make money online.

10 Resourceful Things You Can Do With A Product That Doesn' t Sell by Adrian Kennelly

1. Sell the reprint/reproduction rights to the product. You could make money selling other people the rights to reproduce and sell the product. People are always looking for new products to sell.
2. Giveaway the product for free from your web site. Just because it won' t sell doesn' t mean people won' t visit your web site to get it for free. They may see another product you sell and buy that one.
3. Try auctioning off the product at an online auction. You may make part of your investment back. If you' re lucky, you may even make a profit because people sometimes get into bidding wars and will bid a higher price than the product is worth.
4. Use the product as a free bonus for another product you sell. This will increase the perceived value of the product you' re selling. People will feel they' re receiving more for less.
5. Contact businesses with the same target market and see if they would be interested in using your product as a free bonus for their product. You could place your ad on the product and get free advertising.
6. Sell your product to businesses at wholesale cost as a promotional product. Businesses are always looking for products they can giveaway to their customers with their advertising on the product. You could make part of your investment back.
7. Barter your product to other businesses for things you need for your own business. You could trade for their products or services. This will save you money and help make up for your profit loss.
8. You could create an online contest so people could win your product. This will attract traffic to your web site. You also could get free advertising by listing it on online contest directories.
9. If you decide to giveaway the product for free, allow other people to giveaway the product for free. Place your web site ad on the product. This will spread your advertising and attract even more people to your site.
10. Ask businesses with the same target audience if they would be interested in combining your product with their product. You could then sell them together as a package deal and split the profits.

You may have better results selling your product this way.
