Sex toys for the playful beginner

By Miss Kensington

Sex toys for the playful beginner by Miss Kensington

With the introduction of online shopping, there is no need to be embarrassed about walking into a shop and purchasing sex toys. With such a range of items to choose from where does a girl/guy start? Fear not miss kensington is here to help, providin great ideas to turn you and your partner on. Most people think about sex toys in terms of a vibrator, handcuffs and a blindfold or mask, so i will talk you through some of the less known items you can have in your draw! My top 5 are:

Bondage tape: My favourite colours are black and pink, you can use it to create outfits, restraints and much much more! I recommend strapping around your tits and also just above your crutch and then wrap to one side of you thigh. Makes a great outfit to enter the bedroom. Safe and certainly not sticky!

Remote control toys for couples: One of the best toys on the market is called a mikakodori. The unit is small and discreet where you will clip is on your belt of underwear. You have a small object which will vibrate and you place this close to a G-Spot. Them your partner has a remote and will set the speed to pleasure you while noone else notices!

Rope: Bondage is great fun and very playful. I recommend going for a silk rope version for beginners. Silk basically means it wont chafe or damage delicate skin. a 5m rope you can also learn to make your own handcuffs and eye masks. Great Value!

Straps: This is one for the guys to enhance the doogy style position. When in the doggystyle position, the strap is placed on the womans tummy giving the controller a grasp stap either side. It allows deeper penetration since the controller users the upperbody to pull towards rather than pushing.

Nipple Clamps: Designed to enahnce the nipple sensation which is commonly a G-Spot for most women. Since we all dont have 6 pairs of hands and cannot be in many places at the same time, clamps are great for continual nipple tension. Cock rings are also available for the guys.

Other fun items are liquid latex, where you paint your partner into a latex film great fun and no restrictions for sex.

Safe sex is the only kind of sex! Love Miss Kensington

Smart Children And Smart Toys

By Jessica Davis

Play would always be attached with the term "toys". Toys are the source of fun for children kids and even adults too. If used well, they could be aids in achieving learning and fun both at the same time. What could smart toys do? How could smart parents use these toys for the development of their children?

There are very helpful points that could help out in making your child even smarter:

* Each child has his or her own preference of toys. Let your child express him by deciding on what toys is fun for him or her. With this, it will be easy for the child to think creatively and use the toys.

* Childhood is a time to build bonds of friendship among peers. Interaction toys would be of great help as children get along with their peers. Toys like sport game toys would allow them to meet and socialize with children of the same age.

* Toys could boost the self-confidence of a child. There are these toys which when used could promote the reliance to one's self by a child or children. These come through construction toys. When a child builds it, he also builds the faith in his skill that this building may not be destroyed.

* Thinking independently is thinking smart for children. As they play using toys that will enhance their thinking and logic skills such as puzzles and mazes would be of great help in polishing one's head.

* A bit similar with interaction toys are relationship toys– these help the communication skills of children. We know how important communication is, therefore, these set of toys would really be smart. These are really aid a child to meet people talk and listen and in the end, build links.

Toys are made not merely to be played with without purpose but we must see to it they learn and bring out the smart young people from them through smart choices of toys. Toys are here not to be used as early symbols of violence.
