Acne Alternative Treatments

By Oliver Turner

There is no clear account of the number of people suffering from acne. But the sale of medicines for acne is on the increase and this suggests that there is an increase in the number of people having acne. Acne is caused mainly due to the clogging of the oil generated by the skin. This clogging is initiated by a particular type of bacteria. Most treatments and ointments available for acne concentrate more on removing the scars. This means that the bacteria responsible for acne still remain there. This has led to people looking for alternative acne treatment. Most of the alternative acne treatment mainly tries to eliminate the bacteria responsible for acne.

One of the greatest advantages with the alternative acne treatments is that they are devoid of side effects. There are several herbal combinations that have proven track record of curing acne. Once such herbal combination is the paste made of basil leafs and sandalwood. Another popular alternative acne treatment is the application of the paste made of strawberry leaves. There are several other herbal combinations available in the market that can effectively cure acne.

The main reason for the cause of acne is the deficiency of essential vitamins needed for the skin. Deficiency in Vitamin A, Vitamin E and Pantothenic Acid can lead to acne. Taking large amount of vegetables, fruits and vitamin supplements can cure acne. There are several cures of acne in naturopathy. Herbs, skin cleansers and vitamin supplements are the main treatments for acne in naturopathy. Another advantage of alternative acne treatment is that they are less costly.

Acne light treatment is another new alternative acne treatment. In this method ultraviolet rays are used to clear the acne. Alternative acne treatment requires cent percent dedication from the patient. Unlike other form of treatments, some of the alternative acne treatment requires strict following of the regiment.
