Smile Yourself to Success

By Pamela Geiss

Smile Yourself to Success by Pamela Geiss

Is there really one secret to success? Is there a magical potion that if those who are successful would share with you would make you successful? Is there one answer that will make the difference between your being successful and failing?

The answer is "yes". There definitely is a secret to success, but it isn't what you might think it is. Everyone will have you believe, "if you buy this product, I will impart to you what made me successful". Now, I'm not going to tell you that it won't help. There are lots of products out there that will definitely help you to accomplish your goal. But you have to know what to do with the products in order for them to help you.

The one thing that will help you most to succeed is attitude. You have to believe in yourself and your product. I keep saying this because it is paramount to your success. If YOU don't believe in you and your product, how in the world do you expect to convince others? Your attitude reflects in EVERYTHING you do – your writing, your ads, your telephone conversations, your life – EVERYTHING!

I get up every morning excited to get to work! Truly – I can't wait to get to the computer and write, check my email, put out my ads, get my newsletter going, etc. It's a real joy to have a job that I enjoy! Do I have my moments when things aren't as pleasant as I'd like? Of course! But I have many more pleasant moments than unpleasant ones. I know that the business I have helps people. I know that I have a great desire to help people. So as far as I'm concerned, I have the BEST job on the planet! That's how you should feel about your job. If you don't, you need to find something that will make you feel that way!

Smile Yourself to Success

Now, SMILE! It reflects good feelings in you and in all others associating with you! Have a VERY pleasant and happy rest of the week and smile yourself to success!

Smile Your Way to Success

By Hifzur Rehman

Smile brings beauty to your face, charm to your personality and money to your pocket; apart from being your recognition as a cheerful, friendly, loveable person.

When you smile you also bring smile to the faces of other people around you. And that is a great service to the mankind. Smile, even for a while, can bring happiness in the lives of people who are suffering from distress, anxiety or pain.

Start your day with a big smile. Don't get up from your bed as if you are being forced to do so. Rather jump out of your bed with a big winning smile on your face as this is going to be the most wonderful day of your life filled with great fun, adventure, excitement and joy.

Take the first step out of your home with such a confident smile as if you are going to get whatever you wanted in your life. You are going to reap the rewards of your hard work. Your destiny is in your own hands.

Your relationship skills are much more important than your professional skills. A person who performs his duties happily always gets quick promotion than his other colleagues. A smile on your face while at work is a guarantee that you will get promotion out of turn as everyone will recommend your name and no one will oppose it.

A lively smile on your face is going to give others a positive impression of your personality as a friendly person. People will like to associate with you. Your circle of friends will grow fast without any effort on your part.

If you are feeling depressed due to any reason think of a past joyful event in your life and smile. Smile relieves tension and creates a positive mind frame enabling you to reach at the best solution of the problem without being swayed away by the false fears and unfounded doubts.

Smile attracts happiness and no doubt a happy person is a successful person. Keep on smiling to attract more happiness and success in you life.

If this article brings smile to your face then please refer it to your friends particularly to those who have forgotten to smile. Let there be smiling faces all over the world and happiness all around.
