Specialized Solutions, Inc. Announces CompTIA CAQC Certification for its CDIA+ Training Course

(Tarpon Springs, Florida)–Specialized Solutions, Inc., an all-inclusive training center and developer of multimedia training products, announced today that their CDIA+ Certification Training and Test Preparation Course has been independently reviewed and awarded the CompTIA Authorized Quality Curriculum (CAQC) designation.

With its CAQC designation, CompTIA has recognized Specialized Solutions, Inc.'s CDIA+ Certification Training and Test Preparation Course as having satisfied strict quality standards, and exact curriculum requirements through independent review process. CompTIA Learning Alliance Partner training facilities require training materials which have a CAQC designation. CompTIA approved schools can only use training like Specialized Solutions' training course.

Professionals who want the recognition that only comes with platform independent CompTIA certifications enjoy important educational advantages with Specialized Solutions' training.

Including:

"CAQC Designation

"Coverage of all exam objectives

"Implementation of important instructional design principles

Specialized Solutions Unveils New CompTIA Security+ Training

Tarpon Springs, FL – Specialized Solutions, Inc., premier developer of self–study and certification training products, introduces its new CompTIA Server+ Certification Training and Test Preparation Course.

CompTIA Security+ Certification certifies the competency of security professionals working in the IT industry. The theft or destruction of information or the disruption of communication resources can result in not only lost time and revenue, but also an irreparable loss of confidence by clients and customers. The ability of computer networks to remain functional continuously for only their intended users has become a necessity to business. Professionals who have Security+ training, who have demonstrated the ability to respond to human and organizational weaknesses by passing CompTIA Security+ certification exam, and who have had instruction in cryptography, communication security, can use

real-world tools, and understand the infrastructure will demand the respect of the IT industry. Professionals who succeed in Specialized Solution's Security+ training and have explored their Security+ study guide will not only pass the Security+ tests, but will also succeed against those who would steal, destroy, or disable their businesses.

Computer network security is becoming significant to many in our society. For example, Thomas Kubic, deputy assistant director of the FBI's Criminal Investigative Division, claims, "The use of the Internet for criminal purposes is one of the most-critical challenges facing the FBI and law enforcement in general." As computer networks affect more and more of society's essential services, the demand for qualified computer network security professionals will grow. Specialized Solutions is proud to provide complete training solutions to individuals and companies who recognize the threats posed by unsecured information and computing resources.

Specialized Solutions new CompTIA Security+ training joins their complete line of IT technical training, including CompTIA's Server+, CDIA+, LINUX+, and A+. They also offer a full line of desktop application, safety, and business skills training.

### About Specialized Solutions, Inc.

Upon Specialized Solutions, Inc.'s inception in 1996 the company focused primarily on training for the IT industry. Specialized Solutions has since expanded its horizons, offering custom computer based training (CBT), onsite instructor-led training, and online training strategies for a vast array of topics involving many aspects of corporate technology and culture. Specialized Solutions utilizes learning techniques to address an individual's learning style through \*SAVI concepts.

Specialized Solutions, Inc. provides cost-effective self-paced learning solutions to successfully train Specialized Solutions' students for a new career in information technology or to meet continuing education objectives in the information technology industry, as well as preparation for certification exams.

\*Specialized Solutions concepts are the assessment of learning styles based on the Somatic (learning by doing), Auditory (learning by hearing), Visual (learning by seeing), and Intellectual (learning by thinking) techniques.
