Steal My E-books...Please!

By Wayne Perkins

Steal My E-books...Please! by Wayne Perkins

"My mission in life is to help you achieve your mission in life."

Do you know what the most common question I receive from my e-book-consulting clients?

The question is...How do I keep someone from stealing my e-books?"

My answer to that question is... you want people to steal your e-books!

Here are three reasons you want people to steal your e-books.

1. Qualify more consulting clients.

Recently 3 separate individuals called my home and asked me if a document they found under another author's name was mine. They were afraid it was stolen and wanted to make me aware what was happening to my valuable e-book files.

Actually, I sold reprint and distribution rights for this document to the accused.

In addition I sold him co-author rights as well.

I added that everything was okay.

The three callers have now become my consulting service clients since the initial phone calls.

Steal My E-books...Please!

I would have never found these 3 clients for the fact that they were good Samaritans, informing me of possible "evil doing."

2. Create and Ignite "cluster bombs" Filled with Money.

How would you like to create and set off bombs and not hurt anyone? I plant a series of cluster bombs; loaded with money that can be triggered by thieves in each e-book I create.

These cluster bombs include valuable resource information that either direct the reader to my free information, e-books and telephone consulting over the Internet or to affiliate links that drive the reader to other websites.

This is all great, NO-SPAM publicity for me.

In the case of my most popular digital product, "Stage Hypnotist Training," I include my Amazon.com Associate's Program links over to the best books on Stage Hypnotism written by other authors.

When the potential thief steals my files and posts my stage hypnosis lessons for free over the Internet, I stand to make a great deal of money from the seeded affiliate links.

Since the files are just ASCII text files delivered by autoresponder, I stand a great chance of enhancing my income from any e-book thief.

3. Discover a New Sales Network for Your E-books

If you have marketed successfully on the Internet, you realize that no matter where you stand in the search engine standings, you still need high traffic websites linking over to your website.

In order for the "thief" to be successful in posting your e-book on-line and selling it or giving it away for free, the thief must have a large network as well.

An easy way of finding the thief's network is for you to conduct a "link search" on the thief's website. (This can be executed on AltaVista.com)

Within a few seconds you have discovered websites that are "pointing" at the thief's website.

Once you have discovered the Thief's network, you can submit your

Steal My E-books...Please!

articles and free content in return for links over to your product description page on your website.

After all, the thief's network has already proven interested in what you write. They are encouraging others to view your purloined document.

Summary:

Think about the advantages and opportunities you can create by having your E-books and digital content stolen.

Once you realize that within minutes you can acquire consulting clients, ignite cluster bombs filled with money, and discover new networks of business opportunities, you too will be saying..."Steal My E-books...Please"

Audio Books - 10 Frequently Asked Questions - Part 2

By Paton Jackson

The audio books era is already here. I keep hearing phrases like: Audio book rental, free audio books, audio book club, audio books on CD, online audio book rental services etc.

Here are the next five frequently asked questions about audio books (and the answers of course):

6. What kinds of audio books do you recommend to listen to? Listen to audio books that you would read. Meaning, if you like thrillers, listen to thriller audio books, if you are looking for children books, get children audio books etc.

Yet, I suggest you get to know more other successful audio books kinds such as language tutorials and motivation audio books.

7. Are the old fashioned books going to disappear? I don't think so. In fact, I still prefer reading books before I'm going to sleep. The experience is a different one, and some people still prefer the old books. Yet, I believe that the reading habits of most of the world's population will change in the next century thanks to audio books.

8. Can I find any book in an audio book format? Unfortunately not any book could be found as an audio book. Yet, almost any new book and any bestseller from the last century are getting published as

an audio book. Most of the old books could be found in the format of books on tape and the new ones as downloadable audio books and audio books on CD.

9. How can I listen to downloadable audio books? You could listen to downloadable audio books using a media player on your desk top or your note book computer. However, most people use audio players like iPod to listen to downloadable audio books.

10. Where should I get my audio books? The best place to get audio books from would be one of the online audio book services.

Paton Jackson is the audio books' expert of 911 corp. Find the best audio books sources and more about audio books on
