**Rosoman**

1/ Introduction

This is a guide for those who want to get into e-commerce and to build a website, but who have little money or do not wish to spend that much. It is assumed however that you have a computer and the Internet or have access to them.

We have a site [www.novelty-gift.com](http://www.novelty-gift.com) which so far has cost \$US35.00 (the cost of the name). The rest is free and the only other cost has been my sweat and experience. When we increase our sales we will automate the sales.

The only other actual cost is maintaining an EFTPOS terminal to process the Credit Cards. That is \$US40.00 a month. But we have this for several sites and businesses.

2/ .com Name

Get yourself a name at [www.networksolutions.com](http://www.networksolutions.com) cost \$US35.00 per year.

3/ Host for your site

We use several some as main host and others as mirrors of our main sites [www.hypermart.net](http://www.hypermart.net)

[www.easyspace.com](http://www.easyspace.com)

[www.bizland.com](http://www.bizland.com)

[www.xoom.com](http://www.xoom.com)

[www.prohosting.com](http://www.prohosting.com)

[www.geocities.com](http://www.geocities.com)

[www.webhostme.com/](http://www.webhostme.com/)

## THE 10 STEPS TO GETTING YOUR OWN WEBSITE/E-COMMERCE HAPPENING

We also use Internet drives like [www.driveway.com](http://www.driveway.com) to store stuff online.

In fact you should sign up with the host first after finding that the name is available.

I hope this article may be helpful to you getting started with e-commerce on a minimal budget.

NOTE: Things are changing fast, daily, on the WWW with many free resources no longer free. The policies of some of the web sites mentioned in this article may have changed since this article was written.

END OF PART ONE

Bill Rosoman has been involved with computers (and even email!) for over 20 years. He is the "technical associate", friend and business partner of international author Craig Lock. He developed Craig's famous and original online creative course :<http://www.nzenterprise.com/writer/creative.html>.

#### **E-Commerce, Earn While You Learn! by Gina Novelle**

You build it and they will come is the battle cry of Web Page Designers. Many people are hooked on this idea. Well it's not that easy or is it?

There is a way to try E-commerce before you jump in with the big dollars. During this trial period, you could learn to build your own web page, play in the retail market, and yes Earn While You Learn. Build your E-commerce business like you built your current business. Do it yourself so you don't have to rely on high dollar transit programmers. How?

Use Auction Sites as your playground. You would be surprised to learn the return you could achieve with just a little bit of knowledge. As our clients know, we don't teach anything we don't actually work in! When we decided to earn while we learned, we picked eBay. In addition to making money, we learned valuable information about E-commerce, and:

Lessons in shipping

Lessons in customer support.

Lessons in accepting online credit cards

We now have over 100 E-commerce clients with repeat clients. During our auctions, our website hits increase dramatically. So before you jump into E-commerce, first learn to walk slowly and then run.

What's the cost of eBay? If you accept credit cards, and learn some tricks, the cost of listing, and credit card fees runs approximately six percent of the sales price. You can learn more about our eBay clients at [www.thirdpocket.com](http://www.thirdpocket.com), a support site for the self-employed.
