**THE 10 STEPS TO GETTING YOUR OWN WEBSITE/E-COMMERCE HAPPENING (PART TWO)**

**By Bill Rosoman**

**THE 10 STEPS TO GETTING YOUR OWN WEBSITE/E-COMMERCE HAPPENING (PART TWO) by Bill Rosoman**

4/ Software for making website and maintaining it  
You need an HTML Editor, an FTP Client and several Graphics Programs. Then you will need some CGI software like a shopping cart and forms.

<http://www.webresource.net/cgi/resources/>

<http://www.webreference.com/>

<http://desktoppublishing.com/cgi.html>

There is a heap of online info for how to do the websites, CGI etc.

Not only www sites but newsgroups and lists.

### 6/ Information

[www.guru.com](http://www.guru.com)

[www.google.com](http://www.google.com)

[www.ask.com](http://www.ask.com)

We use Google search engine and ask all the time to find stuff or answers to problems – of all the search engines very comprehensive info... and handy!

NOTE: Things are changing very fast, daily, on the WWW with many free resources no longer free. The policies of some of the web sites mentioned in this article may have changed since this article was written.

The final part (Part Three) of this series will follow.

## THE 10 STEPS TO GETTING YOUR OWN WEBSITE/E-COMMERCE HAPPENING (PART TWO)

I hope this article may be helpful to you getting started in e-commerce with a minimal budget.

Bill Rosoman has been involved with computers for over 20 years (and even e-mail for most of them – since 1985!). He is close friend and the "technical associate" of author, Craig Lock. He developed Craig's original and internationally known online creative course:<http://www.nzenterprise.com/writer/creative.html>.

## THE 10 STEPS TO GETTING YOUR OWN WEBSITE/E-COMMERCE HAPPENING

**By Bill Rosoman**

### 1/ Introduction

This is a guide for those who want to get into e-commerce and to build a website, but who have little money or do not wish to spend that much. It is assumed however that you have a computer and the Internet or have access to them.

We have a site [www.novelty-gift.com](http://www.novelty-gift.com) which so far has cost \$US35.00 (the cost of the name). The rest is free and the only other cost has been my sweat and experience. When we increase our sales we will automate the sales.

The only other actual cost is maintaining an EFTPOS terminal to process the Credit Cards. That is \$US40.00 a month. But we have this for several sites and businesses.

### 2/ .com Name

Get yourself a name at [www.networksolutions.com](http://www.networksolutions.com) cost \$US35.00 per year.

### 3/ Host for your site

We use several some as main host and others as mirrors of our main sites [www.hypermart.net](http://www.hypermart.net)

[www.easyspace.com](http://www.easyspace.com)

[www.bizland.com](http://www.bizland.com)

[www.xoom.com](http://www.xoom.com)

[www.prohosting.com](http://www.prohosting.com)

[www.geocities.com](http://www.geocities.com)

[www.webhostme.com/](http://www.webhostme.com/)

We also use Internet drives like [www.driveway.com](http://www.driveway.com) to store stuff online.

In fact you should sign up with the host first after finding that the name is available.

## THE 10 STEPS TO GETTING YOUR OWN WEBSITE/E-COMMERCE HAPPENING (PART TWO)

I hope this article may be helpful to you getting started with e-commerce on a minimal budget.

NOTE: Things are changing fast, daily, on the WWW with many free resources no longer free. The policies of some of the web sites mentioned in this article may have changed since this article was written.

END OF PART ONE

Bill Rosoman has been involved with computers (and even email!) for over 20 years. He is the "technical associate", friend and business partner of international author Craig Lock. He developed Craig's famous and original online creative course :<http://www.nzenterprise.com/writer/creative.html>.
