Taking The Perfect Bermuda Cruise

By Jake M. Robinson

Whether honeymoon or a get-together of families or friends, a Bermuda cruise is the perfect way to enjoy. No matter what your likes or dislikes are; from pink sand beaches and shopping alleys to colorful nightclubs, Bermuda will have something to offer for the traveler looking for something extraordinary.

A Bermuda cruise is the best way to unearth the jewels of Bermuda, the total land area of which is about 22 square miles only. A variety of cruise options are offered - family, business, honeymoon or even for singles. There are two options for choosing a Bermuda cruise - you either board your cruise from the US itself or take a flight to Bermuda and then embark on your journey.

It is important to know the ports of call in order to plan your tour. Normally cruises will stop at all the three ports of Bermuda. Hamilton, the capital, is the busiest amongst all the small towns of Bermuda and is a great place for shopping and is also known for its exciting nightlife. The almost four centuries old settlements in the port town of St. George's, on Bermuda's east coast, has been designated as a World Heritage Site by the UNESCO. The Royal Naval Dockyard, which has an extensive history of British naval exploits, also has forts and museums. The three ports will serve as your base for exploring the center, eastern coast and the western coast. Horseshoe Bay, South Shore Park and the Cristobal Colon ship wreckage are not to be missed. You can also choose from eco-tourism, golf and watersports or simply lay back and watch the waves break.

Bermuda receives moderate rainfall throughout the year. Tourist influx in the islands is at its highest during the months of April to September and cruise services during the winter months are almost negligible. Many cruises offer huge discounts during the low season. Departures for Bermuda cruises are available throughout the year; so choose a schedule that suits you.

Before embarking on your cruise it is imperative to know what activities or charges are included in your cruise package. At all the ports passengers are charged an entry tax. Cruise packages often advertise reduced rates; but find out whether it includes port taxes, the expenses of land stay, city excursions or spa and gambling charges on board. Different price options are available - you can either book for a cruise that will also include your city expenses or you can book for the cruise only while do your own thing once you are on land.
