Check Doctor Credentials:

Pros:

1. They are the undisputed heavyweights of doctor background checks for disciplinary actions.

Cons:

1. They only specialize in disciplinary doctor reports.

Pros:

1. A huge medical doctor ratings database, bigger selection of doctors

Cons:

1. Methodologies are not clear
2. Database is so big that keeping updated information is nearly impossible.

, with

Pros:

1. Methodology is much clearer
2. Only elite doctors, based on surveys conducted, are added to these databases.
3. Licensure status, certifications and other credentials are researched.
4. Best doctor databases are smaller, therefore information is easier to update.
5. Free top doctor search at

Doctors' Credentials

- field of specialty.
- Make sure no disciplinary actions has been instituted.
- Find out if he/she is fellowship-trained in their specialty field. This—is usually a good sign.
- Look for hospital affiliations or membership affiliations; the more there are, the better.
- Physician or surgeon has been practicing medicine five years or more.
- Research to see if they have teaching responsibilities at any hospitals etc.
- Look for a physician or surgeon who has been practicing medicine for five years or more.
- Research to see if they have teaching responsibilities at any hospitals or other medical institutions.
- Find out if the physician/surgeon has any awards, or is involved in his/her community.

Research a Doctor

- Your local library
- Your state medical board
- The medical society relevant to your intended physician or surgeon's field of specialty.
- American Medical Association , if a member
