The College Pride Organisation From The Start

By Larry Evans

College Pride was founded in 1997. The aim of the College Pride organisation is to enhance college counselling for gay youth. College Pride also promotes awareness of issues affecting gay youth in colleges, universities and other higher education establishments across the United States.

Advising individual institutions about the concerns of gay youths gives College Pride the ability to target specific issues that relate to a particular college and address ways to deal with matters that arise that are perhaps unique to that school. College Pride also produces articles and makes presentations to education professionals across America to make them aware of the tremendous challenges that gay youth have and offer solutions to help give advice to those attending the college.

The number of 'gay friendly' colleges and universities in America has grown substantially as a result of College Pride and the work of their members. A large number of schools have their own college pride group that offers emotional support as well as a social environment for gay youth attending the college.

The College Pride staffs are members of the National Association for College Admission Counselling and actively support the work of the Human Rights Campaign and the many other organisations making a difference in the lives of gay youth. College Pride also work closely with gay youth organisations from around the world to exchange ideas and help strengthen the international gay youth friendship movement.

The mission of College Pride is to help gay youth to deal with the problems facing them as they decide to attend college. Often the gay student has suffered immensely from intolerance, rejection or even violence from people before college and College Pride want to ensure that the same does not continue once they begin their college course. Through education and support, College Pride is taking the fear out of attending college for more and more gay youth of America and bringing a higher level of understanding and acceptance from the non-gay students and educational professionals.

There will always be areas of America that are less accepting of gays or lesbians but College Pride is making huge inroads into changing the perception of many people who misunderstand the difficulties that being a gay youth can bring and helping bridge the gap between gays and non-gays countrywide.

The College Pride Organisation From The Start

College life can be hard enough without the prejudice that many gay youth encounter but now college Pride is making it more possible for gay and lesbian students to start afresh at college and be accepted for who they are.

An Online College Education Overview

By Steve Gargin

There has always been a lot of debate as to whether an online college education is as good as a traditional college education. The answer to this is quite simple; there are good institutions that offer an online college education and there are bad establishments that offer an online college education. So, you need to do your research in the same way when you are looking for the best place to pursue your online college education with as you would an offline course.

Of course you are not going to particularly bother finding out about the location of the colleges that offer an online college education because it really doesn't matter. However, a lot of the other points that you would consider before attending a college should also be taken into consideration before you enrol with an organisation offering an online college education.

The growth in the numbers of people pursuing an online college education has led to increased competition amongst institutions to attract students. The best way to assess the credibility of a site advertising the best online college education is to ask about the accreditation of its courses. Accreditation means that a governing body for a particular field has endorsed the course and this is extremely important in helping you to decide who to trust with your online college education. If a course is not accredited then you need to find out why.

There may be a number of courses that have not yet received accreditation from an appropriate association or governing body but still offer a good online college education. For example, the establishment may have applied for accreditation but not yet been assessed, in which case you can actually check with the particular body that they are in the process of assessing the application for accreditation. Another reason may be that there is no appropriate body that the course can be accredited to. This is less likely but is, nevertheless, a valid reason and does not indicate that the course offered is not going to be worth taking to advance your online college education.

If, however, you find that the online college education institution has been refused accreditation they are likely to try to tell you that accreditation is not important. This is quite simply untrue. An online

college education from a non-accredited institution is not going to be viewed as highly as one from an establishment that is accredited. Choose where you gain your online college education from with care to ensure that you are not wasting your time and money by having an almost worthless qualification.
