New Psychic site sets a new standard on the internet by Nicholas Smith

At last a new psychic site has been released that is very different than anything seen before. It offers a new experience and introduces people to the interesting world of Psychic phenomenon.

Many of us may have never visited a psychic site but the Universal Psychic Guild is a psychic site that certainly deserves a look. Not only do they have many psychics, tarot readers and clairvoyants but they have included a huge range of other services and information much of it free. It is a great resource for anyone who is interested in spirituality and how it can affect their lives.

They have a comprehensive library that includes many different topics on Spirituality and Metaphysics as well as a chat room which their psychics give free readings in on a daily basis. You can log on and actually see which psychics will be giving free readings and what other topics they will be talking about. Matthew Smith from the Psychic Guild explains that it has taken years to get together the people and information that appears on the Psychic Guild. Further he adds that the Psychic Guild has a strong emphasis on customer service and customer satisfaction.

The Psychic Guild has combined the talents of some of the most sought after Psychics and Mystics and is one of the first sites to offer global access to its service. Some of the other services available are email and chat room psychic readings, free astrology and horoscope reports as well as monthly features providing information on areas such as travel destinations, health and wellbeing and motivational tips. A part I especially liked with the site was the ability to send in experiences and articles you have as well as read those that others had sent in.

Nicholas has been involved with psychics for more than 20 years and has been researching psychics and associated metaphysical information to build the site for over 3 years
