The Facts About Anabolic Steroids

By Rick Mitchell

The Facts About Anabolic Steroids by Rick Mitchell

In recent years research has provided some interesting information in relation to testosterone:

2. It takes a dose of at least 300 milligrams of testosterone to raise the body's level above normal.
3. It acts directly on the muscle itself.
4. It stimulates the release of growth hormone.
5. It has an anti-catabolic effect.
