**The History Of Rancho Mirage California**

By "DesertOnline.com"

Today, many of the communities in and around the Palm Springs area are hot tourist spots and

boast of extreme wealth. Rancho Mirage, California is just one of the cities that have benefited by the world's attraction to this beautiful desert area. Incorporated in 1973, Rancho Mirage is relatively young but has experienced tremendous growth over the past few decades.

Rancho Mirage is situated in Riverside County and became the 16th city in that county. It may have seemed like the city was always destined for wealth and success. In fact, the first building permit issued by the city was for the Sunrise Country Club Development.

And it didn't take very long for Rancho Mirage to start attracting attention. In 1974, President Nixon wrote his State of the Union Address while golfing at Rancho Mirage's Annenberg Estate. Prince Charles also visited the estate in this year, and likely noticed a great deal of development because more than 5,000 dwellings were under construction. The activity was so great that Rancho Mirage experienced an \$11 million growth in valuation ranking it as the fifth wealthiest city in Riverside County.

Throughout the years, notables and dignitaries continued to flock to Rancho Mirage. It was here in 1976 that Frank Sinatra married Barbara Marx. Even President Ford loved the area so much that he purchased a home in the Thunderbird Country Club. Maybe he was in love with the area or maybe he wanted to be closer to his favorite golf courses. In any event, the closeness to golf greatness did not improve his game. In 1977, President Ford hit two people with a golf ball during the same month.

Despite several floods that did considerable damage to the area, Rancho Mirage continued growing in population, size and grandeur. Malls were added as were numerous country clubs, resorts and luxury establishments. And in 1985, a huge flood control project was started to eliminate the threat of high waters.

Today, presidents and dignitaries still visit the area, and Rancho Mirage has grown to be a cultural hub. In addition to luxury resorts and golf, a visitor to Rancho Mirage can now benefit from fine art centers, wildlife and ecology education, and elegant music halls.

## **At Last – Hands Free Kayaking Using Foot Pedals**

### **By At Last – Hands Free Kayaking Using Foot Pedals**

Hobie Cat's new Mirage kayak turns the kayaking world on its head with a system that keeps boaters' hands free. The new technology is sure to change how people look at kayaking.

Hobie Cat is one of the world's top kayak makers. The Hobie Mirage kayak is the only "hands-free" kayak ever made. Hobie Cat has completely changed kayaking and the pool of buyers for the sport.

The Mirage is the first kayak with a flipper system that has pedals and steering. Two removable flippers beneath the kayak move in opposite directions when boaters pedal, like a paddleboat but much faster. The kayak's design lets it move easily and quickly. The flippers come off for travel. The system has a self-cleaning property to protect from the normal wear of kayak usage. The flippers adjust to the size of the boater and can be stowed so that they do not scrape in shallow areas.

The Hobie Cat Mirage is one of the best kayaks on the market. Take advantage of this innovative, versatile creation that anyone can use for almost any type of kayaking.

The flipper system gives you a whole-body workout. Your upper body can row while your lower body pedals. The system is a big help if you tire of rowing or need to get to your destination quickly.

Hobie Cat's hands-free kayaks are the fastest line of kayaks ever made. The Mirage is perfect for everyone!

You can find great deals, tips and news, information and reviews to help you

buy a kayak or canoe
