**THE POWER OF A MADE-UP MIND**

"Develop One - And It Could Make You Very Rich"

You Haven't Decided Until You REALLY Decide.

"It is in your moment of decision that your destiny is shaped"  
- Anthony Robins.

Every success ever made or achieved has come about as a result of a decision made at some point.

Making real decisions is a habit, which must be cultivated if you want to succeed in life. Many people think that when they wish for something they have made a decision. "Oh! I wish I could stop smoking", or "I want to stop smoking".

This is an expression of wish. A wish has no power. A decision is something that's fixed. Something that may be termed as irrevocable.

Change Your Mind Set...And Start To Attract Riches...

If you want to accumulate wealth you must be ready to make a real decision today. Change your old attitude. And adopt a new one.

Everyday knowingly or unknowingly we make decisions that control our life.

### Take Control Of Your Life

The reasons why you may be poor today or why you are in the position you are in now is because you have not decided to change your situation for the better. You haven't made the

move to change and stay with it.

If your situation cannot change you, you must change the situation. We constantly meet, read or hear about people who against all odds have achieved success beyond their wildest dreams.

These people have become living examples of the power of decision. They have decided that they have had enough. They won't tolerate anything but the best.

When you finally decide, you'll almost immediately begin to experience changes. Due to your mind being made up.

### Create Your Own Burning Desire For Success...

When you make a real decision you draw a line. You burn your ship and destroy every possibility of a retreat. You leave yourself with no option but to succeed.

This kind of decision backed by a burning desire to succeed gives you the power to do more and get the result you want.

A great man once took his army to a battle front against their opponents who were more armed and stronger. After crossing an ocean, the general of the army commanded that their ship be burnt. The soldiers were all amazed and wondered why they had to burn their ship. 'How would they return after the battle' they asked their general.

The general in reply told them that they either win or they would be destroyed in the battle. Since the

soldiers  
had no means of retreat they were left with no other option  
than to win the battle. They won the battle because they  
had  
no way of retreat.

The only way to change your life is to make a real decision,  
cut off all other possibilities other than the one you've  
decided to make a reality.

### Achieve Everything You Want To...

You can achieve anything you really want in life if you  
are ready to make the decision to achieve them. Whatever  
you desire is what you get. A desire for freedom brings  
freedom. A desire for wealth brings wealth.

Ultimately, it's our decision that determines our destiny  
and not the conditions of our lives.

Financial independence, riches, professional positions and  
desirable businesses are within the reach of every person  
who  
desires it. You must demand those things and expect them.

You must be aware that if you do not make up your mind to  
change your life today, no one will change it for you. You  
must be ready to change and bring that change into effect  
by constantly practicing what you have decided for.  
Be persistent.

When you make up your mind you attune yourself to tremendous  
extra power.

Start today and you'll achieve anything you set your mind to  
Achieve. Nothing can stop you.

=====  
**Cultivate The Habit To Reach Decisions Promptly**  
=====

Those who reach decisions promptly and definitely know what  
they want and generally get it. This is a common trait of  
all leaders in every walk of life. They decide quickly  
and firmly.

When you reach a decision, be slow to change it!  
·Analysis of several million-dollar earners shows that every one of them had the habit of reaching decisions very promptly and changing these decisions very slowly, if at all.

Those who fail do just the opposite. They have the habit of reaching decisions very slowly and changing them very quickly.

=====  
Don't Be Influenced By Other People's Opinions  
=====

Opinions are a cheap commodity. People are ready to sell their opinions to you if you allow them to do so. The majority of people who fail to accumulate sufficient money for their needs are generally easily influenced by opinions of others. They let someone else do their thinking for them. This

won't lead you to success

=====  
Don't Allow Others To Make Your Decisions For You  
=====

You have a mind of your own. Use it productively and reach your own decision. If you need any facts or information from other people, gather this information quietly without disclosing your real purpose.

=====  
Make Decisions Everyday  
=====

Focus and plan your day ahead and stick with your primary decision.

The power of decision can be found in the life of Honda Soichiro, the founder of the Honda Corporation that bears his name. This man has demonstrated the power of decision and we can all draw a great lesson from his life.

Despite all odds against him, he never allowed problems,

challenges or the twist of circumstances to get in his way. He decided he must succeed and today his company is one of the most successful in the world. Honda Corporation employs over 100,000 people and outsells all other motor companies in the U.S except Toyota. This is because Mr. Honda made up his mind to succeed.

I encourage everyone to read other people's success stories. You learn and gather inspirations and courage from those who have succeeded already.

I have written a book called "When The Going Gets Tough" where you'll find the story of Honda Soichiro. In the book you can learn the easy principles of wealth accumulation. It will show you the steps so you can live life on your terms.

=====  
Decide Now To Succeed  
=====

Decide today to improve your life. Don't postpone anything  
  
any longer.

If you REALLY DECIDE today you'll find that the shortest distance between two points is a straight line. Take the straight line now.

Success does not come to you by chance. You must systematically work towards it. You must plan life. Lure it to yourself. Poverty needs no plan.

If You Fail To Plan You Plan To Fail.

### **The Magnetic, Attractive Power of the Mind**

**By Remez Sasson**

#### **The Magnetic, Attractive Power of the Mind by Remez Sasson**

The power of mind draws certain events, circumstances and people into our lives and repels others. In this respect it resembles a magnet. Just look at the people around you. Some pass through certain events and circumstances, while others pass through different experiences. Some accomplish certain things easily, and others accomplish them with great difficulty or not at all.

Your mind is composed of the thoughts you think. These thoughts are like magnetic currents. If you think positively about some event or action, it turns out to be as you thought about it. If you harbor negative thoughts, this negativity is drawn into your life.

You attract into your life what you think about frequently. It does not mean that every thought gets materialized. Most of the thoughts are weak and are not repeated long enough to gain sufficient strength. Weak thoughts, like a weak magnet, hardly have any attractive power.

You have seen how a magnet draws metal objects. A strong and big magnet draws bigger objects than a small and weak one. Magnets have another peculiar characteristic. One side of the magnet draws, and the other side repels.

The power of attraction is a neutral power. The magnet draws to itself everything made of iron, no matter whether it is a useful object or junk. The mind acts in the same way. It attracts into your life positive and negative situations and events, according to the thoughts that you think.

Like the magnet the mind not only attracts, but also repels. If you do not believe you can get or accomplish something, then you repel it. Thoughts of incompetence, weakness, fear and inferiority create a repellent force. It is as if you are creating a wind that blows away and prevents certain things to reach you.

There are several ways to charge your mind and thoughts with magnetic power. Strong desire, concentration and faith are some of the important ingredients for infusing power into thoughts.

Many activate the magnetic power of their mind unconsciously, without knowing what they are doing. When you know the rules, you become able to activate the magnetic power of your mind consciously, positively and effectively.

Visualizing and thinking with concentration, desire and faith, and repeating these thoughts often, unleashes powerful energy. Your thoughts get radiated and broadcasted, influencing the minds of other people, and attracting to you people who think along the same lines as you do and who can help you with your plans. This process also heightens your awareness and perceptiveness of any

## The Power Of A Made Up Mind

opportunity connected with your thoughts that comes your way, and fills you with the inner power and initiative to utilize it.

Why not become conscious of your thoughts, choose to think the ones that are beneficial for you, and

consciously and advantageously utilize the power of attraction? You can attract people, circumstances, events, possessions or a life style with the magnetic power of attraction of your mind.

Remember, what you think about intently, with attention and feeling is attracted to you. It can be material and it can be spiritual. The power of attraction is a universal power and manifests everywhere and in everything. It is the power that holds the Universe together. Without it there would not be any world.

Remez Sasson writes and teaches about spiritual growth, meditation, positive thinking, creative visualization and mind power, and issues a biweekly ezine, "Consciousness and Success". He is the author of two books, "Will power and Self-Discipline" and "Visualize and Achieve".
