The Power Of Subconscious Marketing

By Larry Dotson

The Power Of Subconscious Marketing by Larry Dotson

When you persuade your prospect's subconscious mind to do something, their conscious mind will usually follow. This is true even if the conscious mind disagrees with the subconscious.

For example, your prospect may make a conscious choice not to buy your book on getting over shyness until his subconscious mind suddenly imagines himself meeting and talking to the girl of his dreams with confidence and without being shy.

We've all experienced that same buying pattern thousands of times. Your subconscious mind changed your conscious mind's decision not to buy. How many times have you bought something that logically you knew you could not afford, but subconsciously you imagined the pleasure and positive emotions you would receive as a result of buying?

The subconscious mind can be persuaded by many things like visuals, imagination, rhythm, repetition, emotions, etc. The conscious mind usually deals with logic, words, numbers, problem solving, etc.

You may not realize it but your subconscious mind is being influenced when you watch TV shows, commercials, listen to music, daydream, read a story or find out information, look at art or a picture, etc.

Whatever your subconscious mind is focused on it will believe, whether it's real or false. The subconscious mind isn't choosy, it accepts any information directly or indirectly through our five senses and stores it. It even records background noises, conversations and visuals you're not even aware of.

So, as a business, your main goal is to bypass your prospect's conscious mind and persuade their subconscious mind so that eventually, the subconscious "desire" will win.

It's waiting for you to wake it so it can do its work.

All systems from Silva Mind Control and NLP to the mystical traditions such as Yoga and Martial Arts are

The Power Of Subconscious Marketing

designed to take us beyond our cultural conditioning.

They are all designed to help us realize that there is more to high performance thinking than our logical analytical thinking.

Hunches, intuition etc. are the results of our subconscious working behind the scenes.

In the words of Maxwell Maltz, "Within you right now is the power to do things you never dreamed possible. This power becomes available to you just as you can change your beliefs."

That power to make your dreams come true is your subconscious mind.

Maybe it's time you woke the sleeping giant and put it to work for you.
