The Power Within Is Yours!

The Power Within Is Yours! by Roy Cook

How many times have you said "If Only I could Do That"

I used to say that to myself very often, till I realized that I can do Anything I want, if I want it enough!

Lately, I don't really set goals, I just think them, and work toward accomplishing them, a day at a time. I see myself having already accomplished the task I set in my mind, and within a few weeks of concentrated thought, or less, I have achieved that goal.

I'm not talking about small tasks, just the Big Ones that I would have thought would take me Many months, or even years to accomplish.

I often break up the Big jobs into smaller steps, and set the priority of each step in order of their importance toward accomplishing the Big Job, and complete each task in order of importance.

Lately, my big task is one of changing my whole life from working for other people to being completely Self-Employed. Yes, I do have my own business on the internet selling books and information products, but I still have My Day Job!

I have worked for Other People for the past 40 out of my 49 years in one capacity, or another. Most of that time I have worked as a CNC Machinist machining metal

parts for many different things, and the work has been interesting, but I am growing weary of the J.O.B. and the Time Clock! I need more money, and time to enjoy it. It's time for a Big Change!

I recently made a change in my attitude, and my Agenda. I vowed to be completely Self-Employed by the age of 50. Will I make it? My answer is YES!

I am determined to make it, but I can't do it alone. I am in business to make money, and to help other people change their lives, like I am doing to my life.

My business is helping others to realize their True potential of accomplishment, be it either Mental, or Physical through reading books and information products that were written for that purpose.

Do you know the Good that you can do, if you are determined to do it?

Most people don't, and are more concerned about getting through their lives, and meeting their living expenses.

Pardon me, but that is Not Living! it is Just Surviving!

That's what I have been doing all of my life, and I Want More! I'm sorry, but I want Much More than just to survive in this lifetime. I want to make a difference, and I have already – to many people, and will to many more!

After you have finished reading this article I want you to visit my website, and look around. Make yourself at home, and read a few pages. Then, after you are finished, send me an email about what you think about my website, good, or bad. Remember, criticism is often just a different view point.

Remember, Only You Can Change Your Life, If You want to! If you are comfortable with your lifestyle, then let it be!

But, if you want to change, the first thing that you need to change is your thinking toward yourself, and your

life. Then decide what you really want to accomplish, and sit down in a quiet area and write out your plan, and re-write as many times as it takes to get it worked out in a logical, and practical order. Then plan each day according to accomplishing a step in the Master Plan!

Hey, Have a great day, and remember: You are your own Master!

Power at your Fingertips

By Nicholas Dixon

It is just amazing. Power right at your fingertips. It feels good to have access to such a powerful thing.

In one click you can make thousands feel the power you possess in hand. What am I talking about ? You guess it. The power of Internet Marketing.

Since the first day I started, I was astounded at the potential power at my fingertips. The Internet has provided us with a means of communication unparelled. What you do with that power is essential to your success.

Many will use such power to obtain wealth and fame by unscrupulous means. They are the ones who will fade away faster than spit on a Arizona road.

The thrivers are those who have a vision other than just making money. They make people lives better. You have to give to receive. It is one of Nature's laws. I learned that the hard way.

Our dreams and aspirations can all be achieve. But before that comes we all need to work on our attitudes and mindset.

Ask any of the 'gurus' and they will tell you it is essential for success. And remember the Golden Rule : Give to Receive. You will not regret it.

You have amazing power at your disposal. What you use it to do depends on you. Question yourself seriously. Only you would know.

To your success and mine.....,

Nicholas
