The Ultimate Solution to Problems!

It occurs to me that we, as individuals appear to be defined by our problems. The poor are defined by lack and limitation, scarcity and want. The ill are defined by pain and suffering, fear and worry. Even the wealthy and successful are defined by how to diversify, where to invest, the best use of their money and resources and even how to keep up their lifestyle. It must then follow that the subject of problems and HOW WE DEAL WITH THEM should be a top priority.

I recently read a very thought provoking book on this subject by Wayne Dyer called, "There's a Spiritual Solution to Every Problem". The book is based on the premise that we are all part of a vast energy field ranging from the higher energies such as light and thought all the way to the lower energies – including our solid material world where our problems exist. This vast energy field has access to all the knowledge in the universe. It's all energy.

Have you ever wondered why some people seem to be beset with one problem after another? Or why when we try to fix a problem (lose weight, stop smoking, a troublesome relationship, etc.) the harder we try, the more difficult it gets? That's because we WORRY about the problem, we THINK about the problem, and VISUALIZE the problem – and as a result of giving so much energy to the problem, we manifest more and more problems in our lives. Remember, "As you THINK, so shall you be"!

According to Dr. Dyer, low frequencies of energy encompass negative feelings such as shame, guilt, depression, and fear. These emotions are what can weaken us and keep us mired in the unsatisfactory side of life. Dr. Dyer shows that we can raise ourselves up into the higher frequencies (where we find understanding, love, joy, and serenity), and where we can access the spiritual solutions to our problems – and he gives us step by step strategies for accessing this higher energy, which essentially is spiritual power.

The Ultimate Solution to Problems!

Mother Teresa of Calcutta was a prime example of a person who had accessed the ultimate spiritual power. In all of Her Service to mankind, she continually turned toward God. She was not concerned with the comforts of the world, for she had chosen a path of complete selfless service. The following was written by Mother Theresa. It appears to have been her creed. We could all benefit from following her guidelines.

The Final Analysis
by Mother Theresa

People are often unreasonable, illogical and self-centered;
Forgive them anyway.

If you are kind, people may accuse you of selfish ulterior

motives;
Be kind anyway.

If you are successful, you will win some false friends and
some true enemies;
Succeed anyway.

If you are honest and frank, people may cheat you;
Be honest and frank anyway.

What you spend years building, someone may destroy
overnight;
Build anyway.

If you find serenity and happiness, they may be jealous;
Be happy anyway.

The good you do today, people will often forget tomorrow;
Do good anyway.
Give the world the best you have, and it may never be
enough;
Give the world the best you've got anyway.

You see, in the final analysis, it is all between you and
God;
It was never between you and them anyway.

How To Turn Little Problems Into Massive Opportunities And Profits

By Ian Canaway

In order to make big money online and create killer products which will be lapped up by potential customers you need to realize that it's not just your passions, hobbies, and interests you should be taking note of. Also take a closer look at your biggest problems and challenges.

You see, life has an interesting way of trying to put us onto the right path...if we would only stop and pay attention. Often times, the major problems and challenges in our lives arise only to direct us, to nudge us towards the right path, the path that we're supposed to be traveling on. Yet many of us get so wrapped up in the problem itself that we're constantly fighting and pushing away while never being able to see what it's trying to tell us.

Many of your greatest pains and challenges are simply opportunities in disguise.

Some of our greatest inventions came out of problems and challenges the inventors were having in their lives. They decided to focus on the solution instead of giving all their energy and thought to the problem.

During the great depression, while most people were suffering and going through tough times, others found ways to "solve problems" and then helped others cope with those problems. They became very rich in the process.

You can do the same today.

Start looking for the answers and solutions to those major problems/challenges in your life. If no one else has yet provided an effective solution to the problem, you may just be the person to do it.

Problems are everywhere you look, on every corner you turn. Just look around you. People are miserable, they're irritable, they're mad!

Often times, one of the problems you're having in your life is also something that many others are having as well. Find the solution to it and become the expert that everyone else will look to for answers.

The best way to become rich is to create value in others' lives. Start with your own problems and find ways to make others' lives easier.

Open their eyes to what's really going on around them, offer solutions to their problems. In return, they will reward you with money!
