There Was A Time, When.....

There was a time when "Explode" meant to destroy, not to build.

There was a time when "Guru" meant a religious teacher in India.

There was a time when the "Internet" was the UseNet.

There was a time when "Free Ezine Ads" was productive promotion.

There was a time when "Ezines" were for the most part, informational.

There was a time when "Ram" was a male member of the sheep family.

There was a time when "memory" was all in your mind.

There was a time when "Submit" meant to yield or give in.

There was a time when "Traffic" was something you wished to avoid.

There was a time when "Hits" was usually used as a military term.

There was a time when "Free" really meant Free, no strings attached.

There was a time when "Tons" was a unit of weight measure.

There was a time when "FFA" meant "Future Farmers of America".

There was a time when "Private Members Club" was Tues. night poker.

There Was A Time, When.....

There was a time when " If You had told me I'd be doing this now" I would've told you, that you were a prime candidate for the Looney Bin :-)
