Where do you turn when you need to get your passport in a hurry? The U.S. Department of State Passport Services claims to process passports in six weeks for regular services and in two weeks for expedited services. Neither is guaranteed and it often takes longer, especially during peak travel season.

To get your passport processed and returned to you within 10 business days to as little as 24 hours, you have to rely on a private passport expeditor.

The National Association of Passport and Visa Services says that there are approximately 100 expeditors operating in the United States. If you plan to use one of these services, choose one that has an easy-to-follow application process, online tracking, money-back guarantee and reasonable fees.

Traveling ! Be sure to have a valid passport.
