Great Summer Vacation Deals And Destinations

By Frank Johnson

Ah, summer. The time of year when the weather's warm, the kids have a little more time off school, and it's time for a vacation. Theme parks and beach destinations make for great summer vacations, as well as island trips and continental excursions.

Many people have images of endless road trips when they think about summer vacation, but international travel is a wonderful way to spend the summer. In recent years, airlines have offered cheap airfare to entice travelers to think abroad when it comes to summer vacations. However, when you travel abroad for summer vacation, you need to make sure the destination you're traveling to has a comparable climate during your summer season.

If you're in the northern hemisphere (where the summer months are June, July, and August), the following travel destinations are great places to go on your summer vacation. Read about these locations and select a summer vacation destination that offers the best climate, sights, and activities.

The day is symbolic of the value of social freedoms and democratic governance to the French people. The main celebration takes place in Paris at the former site of the Bastille. The German landscape is still comparable to your favorite fairytale or Robin Hood adventure. Castles in the sky preside over the rich green forests where Hansel and Gretel ventured to meet their witch. The Black Forest (Schwarzwald) is famous for its intense evergreen canopy, vast outdoor activities and secluded get-a-ways.
