Unleash The Power Of Perpetual Marketing

By Adrian Kennelly

Unleash The Power Of Perpetual Marketing by Adrian Kennelly

I describe perpetual marketing as a large number of people promoting one web site so they can all receive the traffic generated by each other.

For example, you decide to create a free ebook that you will give away to your web site visitors. You ask a large number of e-zine owners to give away the ebook in exchange for their ad in the ebook. You can just ask them to link directly to your web site when they promote the ebook. You, of course, will have one of your own ads on that web page.

Let's say you get 8 out of 20 e-zine owners that agree to giveaway the ebook. The 8 e-zines total subscriber base is 75,000.

Now, you can ask more e-zine owners if they would like to promote the ebook in exchange for an ad inside the ebook. This time you can say, you already have 8 e-zines already promoting the ebook with a subscriber base of 75,000.

The next group of e-zine owners you ask will be more tempted to promote your ebook because there is a greater chance they will receive a lot of traffic from the deal. It's win/win situation!

Do you understand the power of perpetual marketing? You could have 20 or 30 e-zines promoting your web site at no-cost, very quickly! You could create a new, free ebook every month and repeat the process.

This isn't the only way to use perpetual marketing. You don't just have to contact e-zine publishers you could do the same with web site owners. You could use a total monthly visitor total as motivation.

It doesn't have to be just an ebook either. It could be a contest you're holding on your web site. You could place the other web site's ads on the contest page in exchange for them promoting the contest.

These are only a few ways to use perpetual marketing. You could use your own imagination to create new ways to use perpetual marketing that will increase your traffic and sales.

7 Secrets To High Performance Thinking – Part 7

By John Colanzi

7 Secrets To High Performance Thinking – Part 7 by John Colanzi

The first six secrets were the blocks building up to the real secret behind high performance thinking.

High performance thinkers recognize the awesome power of their subconscious mind.

- * Relaxation
- * Visualization
- * Autosuggestion
- * Goal Setting
- * Whole–Brained Thinking
- * Humor

All of the above are designed to help you unleash the awesome power of your subconscious mind.

The subconscious has been called the sleeping giant. It's like a big bear hibernating during the winter.

It's waiting for you to wake it so it can do its work.

All systems from Silva Mind Control and NLP to the mystical traditions such as Yoga and Martial Arts are designed to take us beyond our cultural conditioning.

They are all designed to help us realize that there is more to high performance thinking than our logical analytical thinking.

Hunches, intuition etc. are the results of our subconscious working behind the scenes.

Unleash The Power Of Perpetual Marketing

In the words of Maxwell Maltz, "Within you right now is the power to do things you never dreamed possible. This power becomes available to you just as you can change your beliefs."

That power to make your dreams come true is your subconscious mind.

Maybe it's time you woke the sleeping giant and put it to work for you.

John Colanzi has been writing for the Internet for 3 years. He has shown hundreds of webmasters how to use mindset medication to join the ranks of the successful, prosperous marketers. His latest eBook, "7 Secrets Of Success" is available free at:<http://www.internet-profits4u.com/secrets.zip>
