Master Lin Yun, founder of Black Hat Tibetan Feng Shui, has stated that making Feng Shui enhancements without intention, is only 10% effective. However, add intention and you'll get a 120% improvement!

If you listen to successful people talk about what makes them successful, one of the elements is being clear about what they want. And it's not just a vague idea, like to be happy, or to be wealthy. Their goals are SMART goals, they are: Specific, Measurable, Achievable, Realistic and Timely. So, what's the outcome you are going for? How will you know when you reach it?

Everything around you affects you. Whether it's a pile of clutter, a relationship that is dragging you down, or a broken doorbell – everything is part of what you are creating, whether you are conscious of it or not.

Learning about Feng Shui will give you a heightened awareness of how you interrelate with everything in your environment. That's quite a responsibility. So, the question becomes – do you want to go through your life hoping things work out, or do you want to design a fulfilling and passionate life for yourself? Do you want to be the cause or the effect?

Applying Feng Shui with intention will set your life on an altered course. You're making a commitment – it's powerful. I've seen clients begin Coaching, or Feng Shui,

feeling stuck in an aspect of their lives, and within one week had several options magically open up to them. They unleashed a series of opportunities and opened up a pipeline to possibility. It's also about focus. What you focus on expands, and when you move from focusing on feeling stuck, to a wider view of focusing on outcomes, the Universe steps in to support you.

And why not go for some BHAGs? they are Big, Hairy, Audacious Goals. Live your life as a daring adventure. You have the opportunity to create whatever you choose for Your life, so think big!

The clearer you are about what you're choosing to create, the greater the chance of having what you want, and the more effective the Feng Shui. Clearing clutter, or placing enhancements with intention is extremely powerful. It's the difference between making a 10% improvement or making a 120% improvement.

### Maximizing the Power of Your Enhancements

Use these tools to create an environment of success that will support powerful outcomes for yourself. Make yourself a priority and design the life of your dreams.

1. Get clear and very specific about your desired outcome, and write this down.
2. Remove the clutter and clean the area.
3. Choose an enhancement – something that represents the change you would like to create, and place it in the appropriate area of your home or room.

4. Visualize or imagine your outcome as if it's already happened – how does it feel?
5. Speak your desired outcome out loud, in the present tense. Always add, 'this or something better, for the

Highest Good now occurs'. An example is: "I now have 2 new clients who are a perfect fit for me. This or something better, for the Highest Good now occurs".

6. Start taking action towards your outcome.

Sometimes your Higher Power, sees a much bigger picture than you do, so don't place any limitations on what you might receive.

Feng Shui will move you towards the next step in designing your life.

## **What To Expect From A Feng Shui Consultation**

**By Jakob Jelling**

If you are wishing to harmonize or balance your house or any other environment according to feng shui, the ideal way to do so is through a feng shui consultation. A feng shui consultation would provide you the right and proper guidance for you to successfully achieve your goal.

Before you go to a feng shui consultation, it is important that you pay attention to choosing a good consultant. You should try to find out one who has experience and demonstrated knowledge. As with everything else, there are real feng shui consultants, who care for what they do, as well as there are others who do not. But you can easily check on this by asking him some references on where he learned and about past work.

A feng shui consultation may vary according to each different person and the way they like to work, but most of them would follow some general aspects in common. And, ideally, they should allow you to understand what they are talking about and what they are based on to give you a specific orientation.

Most of the times, a proper feng shui consultation would take the consultant to go to the place which must be harmonized. Sometimes a video of the place can be very helpful as well, but a proper feng shui consultation takes the consultant to be able to see the place before he can give certain advice.

A feng shui consultation could go through different stages. First, you may approach the consultant at

his work office and let him know your general ideas. Then, he might ask you to give him a video of the space for which you are consulting him. Once he has the video, he can provide you with specific guidelines on what to do. And then, or instead of the last step, there would be a feng shui consultation stage done in the space itself.

The best advice you can receive from a feng shui consultation is based on accurate information. And, by allowing the consultant to actually see the place you would be able to receive the most accurate information and guidance possible.
