Videos On The PSP

By Robert Frost

If you are like any number of video game enthusiasts, you might have already purchased the Sony

PSP to play your video games on the go. The PSP has proven to be extremely popular in the teenage crowd as well as younger adults. There are many reasons behind this, and one big one besides the gaming aspect of the PSP. The popularity of the PSP has risen because of its abilities to play videos.

With over four hundred movies currently available on UMD, Sony's mini CDs they introduced with the PSP, you'll want to get that popcorn started and settle in for movie night. So, how do you play movies on the PSP? If you will be using an UMD, follow these simple instructions:

- Get your PSP and UMD handy
- For UMD playing, open your PSP by sliding the latch
- Insert the UMD with label facing the back of the system
- Slide UMD down the tracks until it clicks into place
- Close PSP and enjoy!

If you will be transferring movies or videos from your computer, follow these instructions:

- Get your PSP, Memory Stick Duo, USB A to mini B cable ready
- Find your movie or video on your computer and format to MP4 file type, if it's not already an MP4
- Locate the movie(s) on your computer, open the directory
- Attach your PSP to your computer using an empty USB port and the cable
- Insert Memory Stick Duo into PSP by opening the slot on the left side of the PSP, put in the memory stick completely then close the slot door
- Turn on power on the PSP
- In the Cross Media bar, select the Setting menu then select USB Connection
- Transfer the movie(s) to the MP_ROOT100MNV01 directory on the memory stick either by dragging and dropping the movie from your hard drive or by copying/pasting the movie
- Find that popcorn and enjoy your movie!

The article was written by Robert frost He has a couple of good blogs on PSP related information and has reviews on downloading PSP games,music,movies and more.

The Growth And Compatibility Of PSP Downloads

By Joshua Edds

The Sony PSP, or Play Station Portable, is the latest state of the art gadget for downloading music, movies and games. Launched firstly in Japan, then into the US and UK, it's been designed to the highest standard, with quality pictures and audio for PSP downloads. It carries on the traditions of the conventional Play Station but appeals to those who like the mobility of the hand held console.

It would appear that anything which can be formatted for PSP Downloads is being formatted as everyone wants to get on board. There are numerous outlets offering PSP Downloads, some of them for free and with unlimited access. Sony has its own web portal, designed specifically for the PSP, featuring a user friendly PSP interface for downloading trailers, fresh content for games and a choice of wallpapers.

So what do PSP Downloads have to offer? There are the best selling games in all the genres; action, sports, shooters, role-playing and racing games. There are even comic books for PSP Downloads. You can also get wallpapers, movie trailers, full length movies and animation. Favorite TV shows, including drama, sports, soaps and reality TV, have been formatted as PSP downloads. Music videos and songs can also be downloaded and some magazines are offering their whole edition or partial content electronically. A full length graphic novel has recently been added for the PSP downloads. So there really is something for everyone.

Sports nuts will appreciate the announcement from Sony and the NBA, who are making video highlights available from the 2006 NBA All-Star Events. No doubt other sports will follow with their versions.

There are step by step online tutorials to follow, for novices to PSP downloads and lots of useful hints and information from the growing user forums. Getting PSP downloads should be plain sailing, as the PSP has been designed to be compatible with Windows, Macintosh and other major operations.

Joshua Edds is a webmaster for an informative site for PSP owners who are interested in downloading psp movies, videos, games and wallpapers. Considered by some to be the top resource for PSP downloading info. To view it, please go to:
