Website Content Wizard – Don't Buy Until You Read This !

By Lai Chia Yee

Wizard. You may have come across it, many big guns are endorsing it. Now the question is: Is Website Content Wizard recommended? Or is it a scam?

As an adsense publisher I am aware of the importance of unique contents. Search engine loves fresh, unique, quality contents. The problem is, it is time consuming to write articles, or rewrite the PLR (Private Label Rights) articles. Most people are not born writer. There have been many article re-writer software that come and go. I've tried these softwares. These software are usually slow, and the quality of contents produced is very poor. When I come across Website Content Wizard, I gave it a try without much expectation.

Website Content Wizard is basically an artificial intelligence software that re-write your articles based on your writing pattern. Website Content Wizard would analyze the text in the article body, and look through the database for any words or phrase that you have previously used to replace the text. Of course, you get to choose the number of words the program analyzes. In addition, it allows you to add new sentences or paragraph to the articles. If you are new to the program, Website Content Wizard has build-in thesaurus with over 30,000 words that help you to rewrite your articles instantly. You can keep on adding new words and phrases. Once you get familiar with the software, you will build up your personal and project based thesaurus. In this case you "train" the software to think like you.

My little complaint is that it takes quite some times to get accustomed to Website Content Wizard. It took almost 30 minutes to rewrite my first article. I have to manually select the thesaurus and build the data feed. The fact is you need a lot of articles to "train" the software to build a huge database so that the rewriting process is automated.

As you use Website Content Wizard, it will start to "think" on its own. By now I've built up large data feed that enable me to rewrite any articles in seconds. I am quite pleased with the quality of the re-written articles. It is that kind of articles that is pleased on the human eyes and search engine friendly. In addition, unlike other programs, Website Content Wizard runs fast on the computer.

As mentioned earlier I've bought almost every article re-writer software on the market. I am disappointed with most of these products. However, Website Content Wizard got my highest

recommendation.

The Wizard of Soul

By Dr. Dorree Lynn

The Wizard of Soul by Dr. Dorree Lynn

"He is a good Wizard.

Whether he is a man or not I cannot tell, for I have never seen him."

The Wizard of OZ
Frank Baum

The word psychotherapy comes from Greek. Loosely translated, psyche means soul and the therapeutic herapist is meant to be the attendant or the one dealing with healing of the soul. It wasn't until the late nineteenth century with the dramatic input of physicians like Charcot, Freud and others that the psychotherapist became a person entrusted with healing the mind separate from the soul. Now, I am not sure where the soul is located or exactly what it is, but I am certain that it has little to do with the mind as a separate entity.

It is true that psychotherapists are trained professionals, but the great ones are more like magicians. They are ordinary mortals whose magic is the ability to make you believe in yourself. Yes, they may teach some tools and educate you along the way, but ultimately they are no different than the unmasked mortal who changed the lives of those who believed in him in the story and beloved movie, The Wizard of Oz.

Dorothy, The Tin Man, The Cowardly Lion and the Straw Man sought the Wizard in the Emerald City, They followed the yellow brick road and after many adventures, each found that they already possessed the very qualities they so intensely wanted. Once they found what they were seeking, each could move on and Dorothy could go home. She could return to her own life, as the same person, yet changed. An unexpected tornado tossed her into a world she had not planned to enter. Yet once she took the path, what an extraordinary life-changing adventure she had. Life is like that sometimes, isn't it?

"Then you must go to the City of Emeralds. Perhaps Oz will help you."

"Where is this city?" asked Dorothy.

"It is exactly in the center of the country, and is ruled by Oz, the Great Wizard I told you of."

"How can I get there?" asked Dorothy.

Website Content Wizard – Don't Buy Until You Read This !

"You must walk. It is a long journey, through a country that is sometimes pleasant and sometimes dark and terrible."

A psychotherapist is no more than a wizard or wizardess whose task is to help you find your self and in so doing seek your own soul. When your personal tornados toss you into unknown territory, learn to

live with the upheaval and follow your dreams. Let your wizard or wizardess help you. Remember your professional's task is to guide you along the way. Just as in the Wizard of Oz, the wizard is a very ordinary human. He or she just happens to be an extraordinary wizard.

This column's for you,

DR. D

Dorree Lynn, PH.D

Dr. Dorree Lynn is co-founder of the Institute for the Advanced Study of Psychotherapy and a practicing clinician in New York and Washington, DC. Dr. Lynn served on the executive board of the American Academy of Psychotherapists and she is on the editorial board of their publication, Voices. She is also a regular columnist for the Washington, DC newspaper, The Georgetown. Dr. Lynn is a noted speaker and well known on the lecture circuit.
