What Are Angels?

By Judi Singleton

What Are Angels? by Judi Singleton

"We not only live among men,
but there are airy hosts,
blessed spectators, sympathetic
lookers-on, that see and know
and appreciate our thoughts
and feelings and acts."

– Henry Ward Beecher

I have read many articles on angels and there are as many conflicting beliefs about them as there are religions and people. I don't know anymore than you do about angels only that contacting them for their help really works. We are never alone. I have never seen an angel that I know of but I have called them in the dark night of my soul and miracles have happened in my life. The Bible tells us that angels were created when we were. The difference seems to be that angels unlike us humans always are in contact with the Higher Power and they therefore embody perfect faith, unconditional love, and grace. They have seen Higher Power and know him personally. Do they evolve as we do? We are told in all spiritual literature that they are a messenger from

What Are Angels?

the Higher Power. They are allowed if we ask to impart a message directly from God to us. Now why do we need a messenger? I do not have the answers to this but the Bible tells us that none of those who contacted Higher Power could look upon him. So perhaps the angels are there so we can see Higher Power through their eyes. Angels are a very popular subject these days. We are in a time of change on this earth plane. Many things are happening that make us all afraid I think that is why the angels have made themselves known to more people. Perhaps people are calling on them more they have always been there but would not intercede without invitation. This would interfere with our free will. I personally keep a journal and often write to my angels. I write my angels about all of my life asking for guidance about sometimes the littlest things. I always receive an answer when I am patient and believe that I will. It takes wanting to have your angels help above all things. It takes faith that they are there and you can contact them. Then it takes faith to act on the guidance one receives. This also takes courage. But you can ask your angel for all the faith, unconditional love, guidance that you need because they are the experts in these attributes that come from the Higher Power. Invite your angels into your life today. Try out having them help you and see miracles begin to appear in your life. I find that when I feel the most hopeless I will then just call out loud to the angels to come and help and they never fail me. Perhaps I finally get enough emotion going to

What Are Angels?

have things happen.

Whatever and who ever angels are they are here to aid us. I know this in my heart. I have talked to hundreds of people who have angel encounters. They have seen their guardian angels, they have given them strength, guidance, healing, They came in times of emergency to the aid of these people. I personally have never seen my angel but The Bible tells me that they come unaware in human form many times. I have an unshakable knowing that angels exist and they will help if you call.

Armoured Angels?

By Robert Bruce Baird

Armoured Angels? by Robert Bruce Baird

Armoured Angels?:

Why on high do angels sing?
Hearts below to heavens bring
Soldiers of G-d or armoured archangels go
Fighting Dragons or Dracula's guides
Mixing potions like Champagne or Frangelico
While saying women must be `clean' to be brides
Images drawn on ceilings and walls
Homes outfitted from great malls
Clashing times and value systems
Maidens hauling water in cisterns
Borne on shoulders from the past
Church flags should be at half-mast

Raphael or Botticelli
Am I really being silly?
Bringing forth such images and icons
Saying evangelists are really just Cons

What Are Angels?

While in angels I do believe
Here on earth on every eve
Heavens beyond our here and now
Beyond the moon and that cow
In the Logos we have the word or sound
String Theory brings it to the ground
We can creatively manifest
Even when we are at rest

Angels on the Sistine ceiling drawn
Above our earthly ego's brawn
So why are our angels fighting wars?
Our children dying by the scores
Truly now we all must turn
Ecclesiastes, times a changing
New Age old thought re-arranging
Children Gothic Churches burn
Parents wonder what makes them yearn
The lies and wars the Church has wrought
It really doesn't take much good thought
I say the parents and teachers or other sorts
Should organize and change laws and courts

Ask not if the children learn
They've learned so well the angel's swords
From your actions.... Not your words!
