Where can I buy promotional products ?

There are several places where you can buy promotional products. The most distributors have their own webpages where you can inform yourself about the promotional products they sell. Some of these webpages have their own online-shops where you can buy products directly. There you will get the information you need without contacting these companies. (Prices, quantities, imprint area, color, setup charge) And when there is something you want to know you contact them by phone or E-Mail and you will quickly get response.

Now I tried to find a new way to buy promotional products without visiting each webpage of these companies. It takes a lot of time to do this. So I looked for a new way to find the promotional products I need.

There are several webpages on the internet who compare the prices of products from different companies so there can also be a webpage who compares the prices of promotional products.

I went to several search engines and used the keywords "B2B promotional products" and "compare prices of different promotional products companies". And really I get a webpage who compares the prices of promotional products from different companies. <http://www.crobike.de>.

What are the advantages of this promotional products marketplace ?

The most important advantage is that you can compare the promotional products from different companies. You don't need to go to each webpage anymore. So you will save time and money. As a member of this webpage you will also get 5%–10% discount on thousands of promotional products at several different promotional products online shops. You will also get useful tools to compare the products. For example you can use a tool where you can remind several promotional products for later to compare the total costs of each purchase you want to make. (price/quantity, setup charge)

My opinion

Try it out. It's free of costs and you will also save time and money. You can use several useful tools and when you are a member you will get 5%–10% discount off the unit purchase price per item.

How to Increase The Sales Of Promotional Products

By Josef Baumann

I have searched for a new way to increase the sales of my promotional products. A good way is to start an affiliate-program with a commission for every customer who buy an product and who came to your page from a webpage of one of your affiliate-partners.

I thought that this is not the only way to increase my sales and there is another problem. You need to have your own online-shop and a webpage.

So I started to look for a webpage that will give me some tips and advices on how to increase selling promotional products. I used a searchengine and tried the keywords "sell promotional products" and "B2B promotional products". I have got a lot of distributors of promotional products as search results but only a few B2B Marketplaces.

I have visited these B2B Marketplaces and found one webpage where you can sell promotional products without having an own webpage. The name is "B2B Marketplace for promotional products" at

How to start ?

First you have to register. There are no fees you have to pay to register. Then you are able to log in and add five of your promotional products without paying any money. If you want to publish more than five products than you have to pay 3\$ monthly and if you want to add more than 20 and up to 100 you have to pay 10\$ monthly.

The best of all you don't need to pay any fees when a customer who have been send to your webpage buy a promotional product. When you don't have a webpage you can publish your telephone number so that customers can contact you by phone.

Where can I find the Informations of my promotional products?

When you have added your promotional product you can find all the information you have made at the "Promotional Products Shop"-page. There customers are able to compare the prices and the informations of promotional products from different companies.

What's my opinion?

I think you should try this webpage and add five of yours promotional products for free. You will see if more customer come to your webpage or not. And there is another advantage because you will increase your link-popularity at all the searchengines.
