**Which NFL CB's Are Worth The Effort Of Obtaining Football Tickets?**

**By Jay Nault**

Can CB's move football tickets? We think there are a few who can, and we're going to continue our

positional rankings with that crucial position today. CB's are invaluable, and many General Managers will rank them just behind QB's on the overall hierarchy of positions on a football team. A good CB can not only take away a team's best WR, but shut down an entire half of the field. This can seriously limit a team's game plan, and inhibit its ability to spread the ball around. Below are the top 5 CB's in the NFL today, and as always, more than pure statistics have been considered.

**1. Champ Bailey**

Bailey is perhaps the most feared CB in the league, and for good reason. He's big for a corner, has legendary speed, the ability to close like a cougar and has great hands. He can also play the ball with a high level of skill, which is something even some of the best CB's don't have. Bailey never leads the league in INT's because opposing QB's so rarely choose to test him. However, ask any WR in the league this very question, and Bailey will almost always be at, or at the very least near, the top of the list of best CB's.

**2. DeAngelo Hall**

Hall may be young, as he's not set to turn 23 until November, but in two years, he's already become nearly as feared as Bailey. Hall is not big, but he has lightning speed and quickness that's unmatched. He's also a physical tackler and will stick his nose into run support without hesitation. Not to mention, when he does get his hands on a ball, he's a threat to make a big play every time. Hall's return ability alone is worth the price of football tickets. Like Bailey, you won't see much of Hall on Sundays, but that's because the ball isn't coming his way.

**3. Ronde Barber**

Barber is a bit different than Bailey and Hall in that he plays the "Tampa 2" scheme, which means that he's in zone coverage more often than man-man, but he plays it better than anyone out there, and he's ready to pounce on the slightest mistake a QB makes. Barber is also a threat in the open field, and one

of the fiercest hitters in the league, so RB's will look for Barber as they break through a hole, which is rare for CB's.

### 4. Ken Lucas

Many felt that the Panthers overspent when they signed Lucas last year, but all he did was bring stability to the field and shut down pretty much every WR he faced all season. Lucas is a big, physical corner who can run, and he's also a ballhawk, as he's snagged 12 interceptions over the past two seasons. Lucas is not a CB WR's look forward to seeing on the schedule.

### 5. Chris McAlister

McAlister is one of the cornerstones of the Raven defense, and that's saying something considering he shares the field with Ray Lewis and Ed Reed, among others. However, one of the reasons Lewis and

Reed are so revered is that McAlister's blanket coverage allows them to roam free and make plays. Like many others on this list, McAlister is never leading the league in INT's because so few passes come his way.

### 6. Honorable Mention

Three players make this list, and they include Nathan Vasher, who's a great ballhawk but can get beat on that rare occasion. Al Harris may be a bit slow, but Chad Johnson called him one of the best in the NFL, and that's good enough for us, and Ty Law is another legendary thief who's always around the ball, but he's getting up in years. Regardless, any of these CB's is worth the effort to obtain football tickets.

## **Get Your Football Tickets Somehow, Someway**

**By Christophehr M Luck**

As a fan of a very popular and successful professional football team, I know it can be difficult to get

tickets, but what if you want to buy Detroit Lions' tickets? In recent history, the Detroit Lions have not been overly successful, but does that make the tickets any cheaper or easier to obtain? I suppose it depends on who sets ticket prices and how often they sell out their stadium, no matter what their record is

<http://www.westminsterweekly.com>

. The more I look into it, the more I realize that the best

prices on about anything can be found online, and Detroit Lions' tickets, or any NFL tickets for that matter, are no exception. All you need to do then, is understand the step by step process of buying Detroit Lions' tickets online to get the best price possible.

The first couple of steps may seem obvious, but it is important that you are prepared when to make your Detroit Lions ticket purchase. First of all, you will need to figure out which game you want to attend. Is there a particular opponent you want to see? If not, you can just check all games and see where there is availability. Many games for a number of NFL teams are sold out before the season even begins, due to the enormous popularity of pro football

.  
However, just in case, go online to the Detroit Lions' official website and check to see if there are tickets available for the game you want to see. If so, you are in luck, the team will be selling the tickets at face value, which is really as low as you can expect to get them for unless you are buying an enormous quantity of Detroit Lions' tickets.

If you are planning a season or more ahead to buy your Detroit Lions' tickets, you may want to join the team's waitlist of fan club. You will then, likely get access tickets on a preferential basis. In addition, you will likely have a great shot at playoff tickets if that is something that becomes an issue during the season. Because no matter which game you want to go to, Detroit Lions' tickets for the playoffs sure would make for a good time.

Another option is to buy your Detroit Lions' tickets from a ticket broker. Brokering is illegal in some states, but rarely prosecuted. If you are concerned, however, just check with your local and state laws to make sure everything you do is on the up and up. A broker will buy up tickets to sold-out events and resell them for a profit. Your Detroit Lions' tickets won't be cheap going this route, but you are likely to get tickets to whatever event you would like to go to. If you want to bottom feed a little bit more, there are always ticket scalpers around on game day

. They basically do

what brokers do, only without the office. If you are the type who likes to wheel a deal and doesn't mind

gambling a bit, you can certainly do all of those things if you get your Detroit Lions' tickets from a ticket scalper.

Tickets for any NFL team, yes even the Detroit Lions, are difficult to get sometimes. However, if you plan out which game you want to see, getting the Detroit Lions' tickets you want is not difficult. You may have to spend some money, but if you get to see the game you want, isn't it worth it?
