## Why Do We Love Sandals?

**By Mike Yeager**

Comfortable sandals are what everyone enjoys in the summer. Your feet are open to the sun and breeze which just makes you feel that much better. Not only can your sandals be light and easy to wear, but sandals are also fashionable and stylish. Many people wear dress sandals when dining out or visiting friends.

Whether you're considering teva sandals, born sandals, or rainbow sandals, you'll definitely be comfortable at home, work or stepping out when wearing comfortable airy sandals.

In prehistoric times skins or hides were probably tied around the foot for protection and warmth. The sandal, probably the earliest form of shoe, was worn in Egypt, Greece, and Rome; an early form of the boot was also known in Greece and Rome. The characteristic shoe of the Middle Ages was the soft, clinging moccasin, which extended to the ankle. It was highly decorated and was of velvet, cloth of gold, and, increasingly, of leather. Today the choices of shoes are great...wonderful styles and comfort.

Choose only the best sandals, so that you can always feel comfortable. Quality invites comfort, confidence and style.
