Why You Should Choose Las Vegas As Your Next Vacation Spot

By James Adams

Las Vegas (otherwise known as "sin city" to some) is not the same place it was ten years ago.

Today Las Vegas has many things that vacationing families will find attractive such as sites to see, plays, musicals, concerts, sport tournaments and much more.

One of the many things to check out in Las Vegas would be Circus Circus. They have a big indoor circus for littler children. Treasure Island, another great attraction, has a really cool pirate show that is addicting to watch over and over.

The Stratosphere Tower is another awesome site to see. Atop the tower there are some cool things to do, such as reverse bungee jumping or riding the world's highest roller coaster. For those of you that are not familiar with reverse bungee jumping it is definitely unique; you get shot up into the air 160 feet at 45 miles per hour and then come zooming back down at high speeds.

Las Vegas usually has affordable lodging in good locations close to the Strip.

Appreciate a good meal? Try dinners at Emeril's! The food is delicious and is a one-time experience for most. For music lovers they also have the Liberace museum which pays tribute to one of the greatest musicians to ever live.

Las Vegas is in the middle of the desert, so the temperature in summer often breaks 100 degrees. While in the area you might even want to check out the desert.

Make sure you keep hydrated and cool. After all it would not be a good vacation if you came down with heat stroke!

When the temperature gets too hot do not forget to try the pools or spas at some of the finest hotels around. The pool at the Mirage hotel is supposed to be one of the finest around – do not hesitate to jump in for some great fun!
