Why? Because...

This allows the people who read your article to find you and learn more about your business. When other ezines and websites publish your articles (and they will --- some of them instantly), your resource box will be included which will help you increase traffic, gain subscribers & improve your link popularity for the search engines.

1000's are waiting to visit Your Website! This will help them find you!

I want you to write an article. (I have included some help)

I don't care if you don't know "how to write an article" --- you MUST write one today!

I want you to write a simple "How To" article related to working at home, home business, Internet marketing, information publishing, affiliate programs or something along these lines..."

Example: "How to Start an Article Exchange/Trading Center".
Or " How to be Published online"! Anything of interest.

Why? Because...

Why you must write articles!

.. writing articles is one of the most effective ways to market your website on the Internet and increase your subscriber base automatically, 24 hours a day, 7 days a week! And, it's FREE.

Remember, 1000's are waiting to visit Your Website! This will help them find you! (YOU DO WANT THEM TO FIND YOU!)

Believe me, no matter how inexperienced you think you are right now, you know more than a lot of people out there ... and if you need to do a little research for your article, just visit.....
<http://www.google.com> and type in the subject you are looking for.

For more choices, visit <http://www.google.com> and search for "article directories". At the time of this writing, there is certainly no shortage of listing as Google pulls up 1,120,000 results.

Don't spend any more than a few hours on this project. Your article should be 500-1000 words preferably formatted to no more than 65 characters per line.

Some help here (see examples, maybe.....?)

Another great way to accomplish this is to have what is known as an Article Exchange/Article Trading Center on your website. (Do you need a website–setup free?) email me at end of article, I can help you here!

This is where you would swap articles with other webmasters/article authors in order to benefit both parties. This is done much the same way as exchanging links but with far more effective results (in my opinion). There are many benefits to adding an article center to your site:

- *Builds your reputation and online presence
- *Establishes you as a reliable online presence
- *Increases your circle of contacts and networking
- *Improves your search engine status
- *Provides readily available ezine content
- *Adds content to your website

When you find the articles you are looking for, contact the author (this will be you soon enough) and explain your offer. Let him/her know the benefits of trading articles with you. Be selective in choosing the articles. You want well written articles that contain helpful information and/or resources. (Hint here–see why YOU have to write?)

PUBLISH OR PERISH! Ever heard that before?

What you need to do is trade and write articles for and with

Why you must write articles!

quality, websites that compliment, not compete, with your website. Join some of the article lists above to find the type of article and research what you are looking for. You can also visit websites with article directories.

You will instantly be able to get your articles posted on popular websites in all corners of the world. This will improve your link popularity and allow more opportunities for people to find your website.

Compiling a vast and varied Article Exchange/Trading Center will draw more visitors to your site as well as improve your ranks in the search engines. Having your articles posted all over the net will help build your reputation and increase your online success. Get started today on your new Article Exchange/ Trading Center!

Write—Be famous, be known! Have a huge Swipe File! (hint you do have a "swipe" file?)

Plus, ezine & website publishers are always searching these

directories looking for new articles to use for their own newsletter or website and when they publish your work, they are required to include your resource box which can lead to thousands & thousands of dollars worth of exposure for your website and the only thing it costs you is a little bit of time and perseverance.

At the end of your article, create a resource box. Example:
(This is a must or it kinda defeats the purpose, right?)

7 Reasons You Should be Writing Articles

7 Reasons You Should be Writing Articles by David McKenzie

You have probably heard that writing articles is a very successful internet marketing technique. But why is this so?

Here are 7 reasons why writing articles really works:

1. Writing articles is free marketing. You write your article and post it to a number of article resource sites. Then, ezine owners pick up your article and feature it in their ezine. All of this costs you nothing and you get free marketing.
2. The more articles you write, the more you become an expert in your field. Experts get featured a lot more widely.
3. By having lots of articles on lots of web sites around the world, you automatically rank above average on search engines because of your link popularity. All those links in the resource box back to your site can make a big difference in search engine ranking.
4. Writing articles can mean repeat business. In one ezine I have had about 8 of my articles published over the last couple of years. As the subscribers of this ezine have become more familiar with my business they are more inclined to buy from me again and again.
5. You could get yourself featured in a LARGE subscriber ezine. I have had a 500,000 subscriber ezine feature a couple of my articles and it increased my traffic by over 65% in the few days after the articles were published.
6. As most ezine publishers do not write their own articles they are always looking for other peoples' articles. If you write articles you can get yourself featured in dozens of ezines.
7. You could get published in a book. Just last week a popular book featured one of my articles. Now that is the ultimate in free publicity!

Writing articles really works. I have written dozens of articles and it is my most successful marketing technique. It costs nothing and can increase your traffic and sales tremendously.
