**Your Secret Weapon by Dave Balch**

Did you know that you had a secret weapon to help you solve complex and perplexing problems? It is available to each and every one of us whether we know it or not, whether we use it or not.

Do you want to know what it is? I knew you would: it's your subconscious.

Stay with me here... and don't roll your eyes! This is not some hocus-pocus new age revolution or a pie-in-the-sky theory. This is a fact and if you're not taking advantage of it you are missing out big-time.

The best way to explain it is with an example of how I used it just last night.

It has been very hot up here in the mountains (at least to me!) and I don't do well in the heat. We have central air conditioning for the first level but my office is on the lower level and is way too hot for me to concentrate. So, I set up a makeshift office upstairs and wired it so I could operate my desktop computer (downstairs) from upstairs using my notebook computer. There is special software to do this and I couldn't get it to work properly: I could operate the laptop from the desktop, but not the other way around, which is the way I needed it to work.

I tried everything: technical support at the manufacturer's website, other user groups on the Internet, comparing the

## Your Secret Weapon

settings on the different computers (after all, it worked one way, why won't it work the other way??), reading documentation, "help" files, etc. To complicate the situation, I was using an older version of the software which was no longer supported. Needless to say, I was very frustrated and out of options; I couldn't think of anything else to try.

That's when I decided to use my "secret weapon". I realized that I was spinning my wheels, that there must be a solution that I just couldn't see, and that I would be able to figure it out more quickly if I put it away and let my subconscious

work on it for me.

Sure enough, within a few hours I had four new ideas to try. At 2:00 a.m. I woke up with another one, which turned out to be the solution to the problem.

It's kind of ironic isn't it? Sometimes the best way to solve a problem is to stop working on it!

The secret is to take your mind off of it. Go on to something else. It doesn't have to be an activity that is related to the problem; in fact I believe that the larger the difference in activities, the better your result will be.

My wife is good at this. We often have animal-related problems to solve such as how to take care of them when we need to go somewhere, or how to keep the dogs away from the flower pots, or how to allow the cats on the deck but not out into the forest. She thinks about it a while and then goes on to the next thing. Before you know it, she has the perfect solution; it just pops into her mind while she is doing something that has nothing whatsoever to do with the problem.

Try it. It really works!

## **The Secret Affiliate Weapon: Weapon Of Mass Online Profits?**

**By Caiden Felix**

Ewen Chia is a man with a considerable reputation. He is as respected within Internet marketing as tiger woods is in golf!. Ewen is one of the most successful affiliate marketers on the web...this man generates HUGE wads of cash from his products, affiliate programs and joint ventures. Now, Why am i blabbering on about Ewen Chia? Well, its because hes just released the Secret Affiliate Weapon!

Whats The Secret Affiliate Weapon?

The Secret Affiliate Weapon is Ewens new money making system. Basically, the sales page promises that Ewen is going to reveal some of his most effective affiliate marketing strategies if you sign up for his membership site. Its also incredibly cheap at \$9.97 (typically this sort of system would sell for upward of \$50). This made me very skeptical to start with, although it proved to be unfounded . Secret Affiliate Weapon promises to "show you how to make massive amounts of instant cash from affiliate programs on complete autopilot". A bold claim indeed! Is Ewen true to his word? Well lets see shall we.....!?

So What Did I Find When I Purchased The Secret Affiliate Weapon?

What i found is that Ewen clearly presented 3 of his principle weapons in a concise little blueprint package. One in particular proved to be very very useful to me. You see, one of the hardest things that affiliate marketers often have to overcome is breaking into a competitive market. It can be very intimidating indeed. Secret Affiliate Weapon presented me with Ewens thinking on this topic and it blew my mind! It basically slapped me in the face, showed me what i was doing wrong, and what i should be doing to get it right! This alone was worth 10 times what the asking price for the whole Secret Affiliate Weapon package costs.

Any Bad Points?

One thing that i will say is that Secret Affiliate Weapon will not be ideal for Internet marketing beginners as the system assumes that you already have some basic experience.

In Conclusion

The Secret Affiliate Weapon turned out to be a real gem, and im pleased that i found it. Ewens really got it right (as usual) with this one and i recommend it whole heartedly!

Thanks for reading, Caiden Felix
